Mary Washington College Awarded National Science Foundation Grant

Miss Mary G. Dodson '61 Named Teacher of the Year

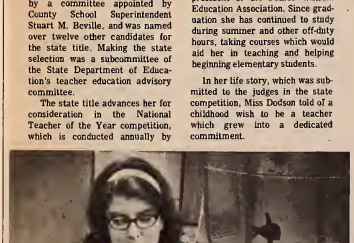

Mary G. Dodson '61, a first grade teacher at Featherstone Elementary School in Prince William County, has been selected as Virginia's "teacher of the year" for 1970.

Miss Dodson, who has worked in the Prince William school system since her graduation from Mary Washington in. 1961, was selected for the state competition by a committee appointed by County School Superintendent Stuart M. Beville, and was named over twelve other candidates for the state title. Making the state selection was a subcommittee of the State Department of Education's teacher education advisory committee.

The state title advances her for consideration in the National Teacher of the Year competition, which is conducted annually by Look Magazine. Five finalists in this competition will be announced in December and a winner will be named in February. In addition to being featured in an article in Look Magazine, the national winner will also be honored at a White House ceremony.

A native of Lancaster County, Miss Dodson served last year as the president of the Prince William Education Association. Since graduation she has continued to study during summer and other off-duty hours, taking courses which would aid her in teaching and helping beginning elementary students.

In her life story, which was submitted to the judges in the state competition, Miss Dodson told of a childhood wish to be a teacher which grew into a dedicated commitment.

Mary G. Dodson
Teacher of the Year

Mary Washington College has received a grant of $250,000 from the National Science Foundation under its College Science Improvemeot Program (COSIP) over the next three years. In addition to the federal funds the State will allocate approximately $217,000 for the program, bringing the total allotment to more than $450,000.

The funds allotted for the program will be used to improve existing programs in several departments in the natural and social sciences and to introduce a number of new multidisciplinary and interdisciplinary programs not now available at the College.

Participating in the program are the departments of biology, chemistry, geography and geology, political science and economics, physics, psychology, and sociology. In each case the funds will provide primarily for the purchase of additional equipment, additional faculty or faculty training, or the introduction of new course offerings.

New programs and projects which will be made possible by the grant include a center for quantitative studies, a linguistics program, Rappahannock River ecology studies, an advanced seminar for natural sciences, a center for the preparation of illustrations for classroom use, an x-ray diffraction and fluroescence laboratory, and a nuclear laboratory.

As indicated by the grant some $144,835 would be allotted for the purchase of instructional scientific equipment, and equal amounts of nearly $50,000 would be available for faculty research and scholarly activities, and for course and curriculum development.

As approved, Mary Washington College will receive $115,400 the first year, $59,600 the second, and $75,000 the third and final year of the grant. It represents the largest single grant the College has received for use in the instructional program.

The 230-page proposal was pieced together over a six-month period, coordinated through several meetings of all participants, edited, typed and delivered in person in Washington, D.C. About seven months after the 20 copies of the tome were delivered and after a broadly-trained, panel review of content was complete, two representatives from the COSIP branch of NSF came to the College to appraise the needs and the dedication to improvement of the College as a whole.

They later recommended to the budget board that the proposal writers here had all the while been expecting some sort of revision request by the examining panel, if not indeed wholesale slashing of areas from the proposal. But this fear, based on modesty, perhaps, was needless—this being so in spite of the cutbacks in NSF funds and the ever growing number of requests for these swindling awards.

The two-man visiting committee (consiting of the Director and Associate Director of COSIP) congratulated the College team on the wise and integrated scope of the proposal—it represented, they said, a program designed to improve the college as a whole, not individual departments alone. This synthetic approach distinguishes the intent of COSIP from other NSF education programs. Successful proposals must have this quality, they said.

The unifying theme for the proposal is invigorated, active scholarship for student and faculty, implemented and extended by intensified methods of observation, analysis and individual interpretation. A large chunk of the funds go toward improving quantititative capabilities at several levels of sophistication and for increasing the interplay between the several natural sciences. These features help stimulate the active, inquiring attitude that is sought.

CALL FOR NOMINATIONS
Distinguished Alumnae Award

This is your opportunity to bring to the attention of the Distinguished Alumnae Award Committee an outstanding MWC alumna. Please send the name of your candidate and a supporting statement to the Alumnae Office of Mary Washington College, attention of the Distinguished Alumna Award Committee. May we have your nominations as soon as possible.

Administrators Promoted

Two Mary Washington College administrators, Michael Houston and Edward V. Allison, Jr., received recent promotions to higher administrative posts at the College.

Announced by Chancellor Grellet C. Simpson in October was the promotion of Houston to Assistant Chancellor for Administration, a newly created position, and the elevation of Allison to Comptroller of the College. In a third administrative change, Chancellor Simpson announced the promotion of Miss Rose Mary Johnson to Chairman of the Department of Biology.

Houston

Houston, a member of the College staff since 1957, was Director of Admissions for 10 years prior to becoming Assistant to the Chancellor in 1967. In making the announcement, Chancellor Simpson indicated that the change, particularly in the title, was made in an effort to clarify and to unify Houston's current responsibility for assisting the Chancellor in coordinating administrative services for the College. The title and position of Assistant to the Chancellor will be abolished.

Allison, a former accountant with the FMC Corporation, joined the College staff in 1967 and served as Business Manager until the retirement this year of E. E. Woodward. The post of Business Manager will, at least temporarily, remain vacant. As Comptroller, Allison assumes the role of the College's chief fiscal officer and will, in addition, direct the operation of the physical plant, food services, and bookstore.

Miss Johnson succeeds William C. Pinschmidt, Jr. who resigned as Chairman of the Department of Biology last month in compliance with the conflict of interests law passed by the 1970 General Assembly. Mr. Pinschmidt's wife is an Assistant Professor in the department. Pinschmidt retains his rank of Professor and will continue teaching.

A Phi Beta Kappa graduate of Randolph-Macon College, Houston holds masters degrees in History and Communications from The American University. Prior to 1957, he was Director of Information Services at Randolph-Mason.

Allison, a native of Fredericksburg, is the son of Mr. and Mrs. E. V. Allison, 811 Monroe Street. A graduate of James Monroe High School, he received a B.S. from the University of Richmond and was employed by FMC from 1962 to 1967.

A member of the faculty since 1962, Miss Johnson completed her undergraduate work at Hood College. She holds M.A. and Ph.D. degrees from the University of Virginia.

Allison

Annual Alumnae Council Convention Held in November

More than seventy-five persons—alumnae, students, faculty, and administrators — gathered at Mary Washington College on Saturday, November 7, for the annual Alumnae Council Convention.

The program for the convention which was entitled "What Now," took a close look at the College today and at what might be ahead. The morning session, which opened with an introduction by Mrs. Olivia Wheeler McCallum '36, Chairman of the Council; and a welcome by the Chancellor, Grellet C. Simpson, featured brief presentations on the theme by three members of the College community: Mr. Michael Houston, Assistant Chancellor for Administration; Mrs. Nancy H. Mitchell, Assistant Dean of the College; and Miss Marilyn Morgan, President of the Student Association.

This opening general session was followed by three simultaneous departmental sessions at which those attending had an opportunity to talk to departmental chairmen about the changes and directions in their respective fields.

Following lunch the convention concluded with an afternoon general session. At this session the voting members elected Mrs. Mary Klinesmith Kelly '44, to represent the council on the Alumnae Association Board of Directors. She succeeds Miss Mary Hickie '66.

Marine Biology Offered Again In Summer '71

For the third consecutive year, Mary Washington College will offer an undergraduate summer course in marine biology for students, teachers, and interested persons with sufficient background at The Cross Rip Camp on the Chesapeake Bay near Deltaville, Virginia.

To be taught once again by Dr. William C. Pinschmidt, Jr., Professor of Biology at the College, the six-week session will begin June 14 and will offer six-semester hours of credit. For elementary and secondary school teachers the course will also count toward certification renewal with the approval of their respective divisional superintendents.

The course affords the student a unique opportunity to gain knowledge in a relatively unexplored, but rising field by taking advantage of the summer season and the excellent natural facilities at The Cross Rip Camp, which is owned and operated by Dr. Anna Scott Hoye, Professor of Biology at the College.

This year a new specially equipped, 40-foot work boat, purchased through the National Science Foundation's COSIP grant, will be available for collection trips and field excursions on the Bay and its tributaries. Two other smaller boats and additional collecting and recording equipment will also be made available through the grant.

Persons interested in application forms or additional information should contact the Admissions Office or Dr. Pinschmidt at the College. Applications for the course will not be accepted after March 1, 1971.

Hockey Association Honors Margery Arnold

Miss Margery Arnold, Associate Professor of Physical Education, was recently named an Honorary Member of the Southeast Field Hockey Association in recognition of her outstanding contribution to hockey as a coach, teacher, player, official and officer.

Miss Arnold has been active in the Tidewater and Southeast Association for many years. She has played with the Virginia and Tidewater teams and served as president, vice president, and secretary-treasurer in both the Tidewater and Southeast Field Hockey Associations.

Laura Sumner Elected President Of Classical Group

Mrs. Laura V. Sumner, Professor and Chairman of the Classics Department at Mary Washington College, has been elected President of the Southern Section of the Classical Association of the Middle West and South.

Mrs. Sumner's election came at the annual meeting of the Association held in Miami, Florida November 5 through November 7. She is the first woman to hold this office.

At the meeting Mrs. Sumner also presented a paper on the "Classification of Priests in Roman Religion" and served as mistress of ceremonies at the concluding banquet.

Phi Beta Kappa Chapter Sets February Installation

Dr. Rosemary Park, newly elected President of the United Chapters of Phi Beta Kappa, will preside at the installation ceremonies of the recently approved chapter of the Society at Mary Washington which is to be held Friday, February 22, 1971.

At the ceremonies, Dr. Park, a national renowned educator and college administrator, will present the chapter with a charter designating it the Kappa Chapter of Virginia.

Elected to the presidency of the United Chapters at the Society's triennial meeting in September, Dr. Park has had a long and distinguished career in higher education. During this career she has served as president of Connecticut College, as president of Barnard College, and as chairman of the Board of Directors of the Association of American Colleges. The recipient of numerous honorary degrees, Dr. Park is currently vice-chancellor for educational planning and programs at the University of California at Los Angeles.

Approval of a chapter of the nation's oldest and most prestigious honorary scholastic fraternity at Mary Washington also came at the Society's triennial meeting at Indiana University in September, culminating an effort begun in 1964 and climaxing a personal goal established by Chancellor Grellet C. Simpson when he assumed leadership of the College in 1956.

Meeting in an organizational meeting in November, the Mary Washington College faculty members who are members of Phi Beta Kappa elected officers for the present year.

Elected President was Chancellor Simpson; while James H. Croushore, Dean of the College, was named vice-president; and Edward Alvey, former Dean of the College, was named secretary - treasurer. A new slate of officers for 1971 will be named following the installation ceremonies.

Richard Warner Named President of Slavic Studies Chapter

Richard H. Warner, Assistant Professor of History at Mary Washington College, has been elected President of the Virginia Chapter of the American Association for the Advancement of Slavic Studies.

A charter member of the Virginia Chapter, Mr. Warner was elected at the organization's annual meeting held Saturday, November 21 in Richmond.

Earlier in the week, Mr. Warner presented a paper entitled "The USSR Exchange Program in Leningrad—1956-67" at the University of Virginia Annual Colloquim of the Center for Russian and Communist Studies.

Restructuring Nears Completion

Two more steps in the restructuring of the academic program at Mary Washington College were taken early this month with faculty approval of the granting of a single degree and acceptance of a transitional academic calendar for the 1971-72 session.

Upon the recommendation of the Ad Hoc Committee on Degree Requirements, Student Course Loads, College Calendar and other related matters, the faculty voted that, beginning with the class entering in 1971, Mary Washington will confer only one degree, the Bachelor of Arts.

In acting upon the session calendar for the 1971-72 school year, the faculty approved a motion that the first semester begin and end before Christmas and that the second semester begin in January and end at an appropriate date in the Spring. The exact dates of the session would be determined by the appropriate administrative officials.

The elimination of the Bachelor of Science degree was recommended because, with the implementation of the new degree requirements in 1971, the former distinction between the B.A. and B.S. degree programs would no longer exist. It was also noted that many of the traditional liberal arts colleges offer only a Bachelor of Arts degree and that an increasing number of institutions were moving toward this alternative.

This further definition of Mary Washington College as a liberal arts institution does not change in any way the specific major programs, such as those in the sciences or in the various cooperative programs in which professional degrees are offered by other institutions.

With the approval of the modified semester calendar it was noted that the action would pertain to only the 1971-72 school year and that further consideration would be given to a final resolution of the calendar question.

In accordance with the new degree requirements enacted by the faculty last spring, the total requirement for a degree will remain 120 hours plus two hours of physical education. These new requirements are designed to increase the academic alternatives available to the student within the liberal arts spectrum and are a recognition of the need for diversification.

Essentially the new requirements dictate that a student complete two courses in each of the basic areas defined as literature, humanities, social science, and natural science. In addition to these eight basic courses, one-third of the student's total course load must be taken in a subject or subjects outside the major program.

The new requirements also insure thorough preparation in a major by permitting up to one-third of the total degree program to be required in the major program and allowing the student to take up to 45 percent of the total program in the major subject. Other unique features include alternate plans which allow for greater concentration or special majors by exceptional students.

The action of the faculty culminates the work of the Ad Hoc Committee which began in May, 1969 with its formation. In recognition of the task performed by the committee, Chancellor Grellet C. Simpson expressed his personal appreciation to the 20-member group composed of students, faculty and administrators.

Distinguished Visitor Panel Moves Toward Selection

A student-faculty-alumnae committee for the selection of Mary Washington College's first Distinguished Visitor in Residence has been named and is in the process of making such a selection.

The thirteen-member committee has held two meetings to establish procedures and consider possible recipients, and it hopes to name the first Visitor prior to the second semester of the current school year.

The Distinguished Visitor in Residence program was established by the Alumnae Association last spring when it voted to begin the project on a limited basis during the 1970-71 school year. The Association also voted to present the first endowment in honor of Eileen Kramer Dodd, Professor of Psychology who retired at the conclusion of the 1969-70 school year, and her husband, the late James Harvey Dodd, who was a Professor of Economics and Business Administration at the College for 34 years.

As currently projected, the first recipient would be employed to deliver a series of lectures, lead discussions and seminars and meet informally with students and faculty members during the second semester. The committee has emphasized that the recipient must be able to relate dynamically with small and informal groups as well as with larger lecture audiences.

Members of the joint selection committee include: students, Carol J. Anderson, Penn Bailey, and Ann Bowling; faculty, Matthew Herban, III, Levin Houston, III, and Roy B. Weinstock; and alumnae, Eloise "Bitsy" Clark '51, Willie Lee Nichols Rose '47, and Clara Boyd Wheeler '31. Serving in an ex-officio capacity are Chancellor Grellet C. Simpson; Michael Houston, Assistant Chancellor for Administration; Ann Louise Perinchief '67, Director of Alumnae Affairs; and Ruby York Weinbrecht '48, President of the Association.

Evening Commencement Set For June 5th

Departing from past practices, Mary Washington College will hold the 1971 commencement exercises on Saturday evening, June 5th.

In an effort to accommodate as many parents and guests as possible, the ceremonies will again be held on the lawn in front of Mary Ball Hall on the campus. In the event of rain the program will take place in George Washington Auditorium, where seating would be more limited.

For the past three years the commencement exercises have been held outdoors, but the heat and glare of the sun have caused some problems; so it was decided to schedule the ceremonies during the early evening hours this year.

A graduating class of approximately 420 is anticipated for 1971.

Mary Washington College Bulletin, Alumnae News Issue, Volume 2, Number 1, December, 1970. Published monthly except August and November by Mary Washington College of the University of Virginia, Fredericksburg, Virginia, 22401. Secondclass postage paid at the Post Office, Fredericksburg, Virginia.

Summer Session To Be Opened To Area High School Students

Mary Washington College has announced that it will undertake an exciting experiment in education by admitting qualified rising high school seniors to the 1971 Summer Session.

A. R. Merchent, Director of Admissions, indicated that the program, which will be open to students from Fredericksburg and seven nearby counties—Stafford, Spotsylvania, King George, Caroline, Westmoreland, Fauquier, and Prince William, is designed for students who might be interested in and benefit by beginning college-level studies prior to their graduation from high school.

Eligible to participate in the program are those students who have completed their junior year in the secondary school, whose academic performance has been of the highest caliber, and whose level of intellectual maturity and academic promise are such as to benefit from this experience.

Students admitted to the program will be permitted to enroll for three to nine semester hours of credit which would be chosen in consultation with the Dean of the College or a designated adviser. The College will grant full credit for all courses successfully completed.

In order to be admitted a student must be nominated by the secondary school he is attending. Such nominations should come from various instructors through the high school principal or the director of guidance. In this initial program, students will be admitted only as day students and thus must live within commuting distance of the College.

Mr. Merchent pointed out in making the announcement that admission under the Special Summer Student Program does not constitute automatic admission to the College with regular status following graduation from high school. Those students wishing to enter Mary Washington College as full-time freshmen must apply under the normal procedure. Mr. Merchent added, however, that a good record in the summer program would count strongly toward a favorable admission decision for the regular session.

All MWC Teacher Programs Gain Approval

All programs for the preparation of teachers offered by Mary Washington College have been approved by the National Council of State Certification Officers.

Approval came following a three-day visit to the campus in December by an evaluation committee of the National Council. This, in effect, means that the College now assumes full responsibility for approving and certifying qualified students as teachers in elementary and secondary schools.

In the past, teacher certification for those qualified students has come from the State Department of Education. Now students completing Mery Washington degree and teacher certification requirements will, upon the recommendation of the College, be certified as teachers in Virginia and in twenty-three other states signatory to the teacher certification reciprocity agreement.

Masters at Work

Mary Washington College students received a special treat in November when two experts in their respective fields of dance visited the campus to conduct master classes. Frederick Franklin, left, Artistic Director of the National Ballet in Washington, D.C., gives some individual instruction; Ralph Page, above, of Keene, New Hampshire, nationally famous contra and square dance authority, calls out instructions.

Ohio Chapters To Organize

During the week of November 16, 1970 a meeting was held in Dayton, Ohio at the home of Mrs. Sarah Armstrong Worman '48 and in Cincinnati at the home of Mrs. Susan Rutan Joehnk '63 to start alumnae chapter groups. The initial meetings were termed successful. Miss Ann Perinchief, Director of Alumnae Affairs, attended both functions.

The groups have agreed to meet twice each year—individually in the fall and a joint meeting in the spring. Plans are now being made for a spring luncheon in 1971.

Persons interested in joining either group should contact one of the following women:

Mrs. W. Thompson Baker
(Barbar Saul '50)
325 Brydon Road
Dayton, Ohio 45419

Mrs. Karsten Joehnk
(Susan Rutan '63)
1173 Hollywood Avenue
Cincinnati, Ohio 45224

Both Mrs. Baker and Mrs. Joehnk, who have been chosen chairmen of the groups in their respective cities, stressed that new members are welcome and are encouraged to contact them for information.

Alumnae Scholarship Fund Gives Assistance To Many

Since it began in 1962 the Alumnae Scholarship Fund has provided nearly $20,000 in stipends to deserving members of the Mary Washington College community — faculty, students, and alumnae.

Administered by the Office of the Chancellor, the Fund is one of many ways in which contributions to the Alumnae Fund or to the Alumnae Association are used to aid individuals and further the overall goals of the College.

Thus far, some seventy-three persons have received grants from the fund for advanced studies, research or special educational projects. These grants have been almost equally divided among the three major segments of the College community with 25 alumnae receiving stipends and 24 students and a like number of faculty members benefiting from the program.

Allocations from the Fund have been used to assist persons in a wide range of fields with equally varied interests. With assistance from the Fund, individuals have travelled to India, Jerusalem, and Paris for special studies and research; it has aided in sending several members of the alumnae to law school; and numerous members of the faculty and alumnae have been aided in achieving their doctorates through grants from the fund.

All members of the College community who are pursuing specific educational goals are eligible to request assistance for the Alumnae Scholarship Fund. Such requests should be written and submitted to the Chancellor. Grants are based on the merit and need detailed in each respective request. A limited amount is available each year.

New Jersey Alumnae Set First Meeting

Attention MWC alumnae residing in New Jersey!

The first social gathering of MWC alumnae in New Jersey has been tentatively scheduled for February 6, 1971 at the home of Marilyn Wriede, Edison, New Jersey.

If you are interested in attending this gathering and in becoming a member of the New Jersey chapter of MWC alumnae, please contact Ellen Williams, Barrett Gardens, 5F, Kendall Park, New Jersey or phone 201-297-0909. If you have not been contacted already, please get in touch with us.

Samuel T. Emory Appointed To Advisory Group

Samuel T. Emory, Professor and Chairman of the Department of Geography and Geology, was recently appointed to a Special Advisory Committee on Public Opinion for the U.S. Department of State.

Mr. Emory was among 100 persons named by Secretary of State William P. Rogers to serve on four regional sections of the committee, which is designed to help keep State Department officials informed of public opinion on international questions.

A member of the Mary Washington faculty since 1959, Mr. Emory is also chairman of Fredericksburg Republican Committee and heads the City Planning Commission.

MWC Exceeds UGF Goal

Mary Washington College has exceeded the $4,600 United Givers Fund goal established for it in the 1970 campaign.

Donors at the College had thus far contributed or pledged a total of $5,58[illegible] nearly 25 percent more than the amount contributed last year by members of the College community. Among the contributors were members of the faculty, staff and student body.

COSIP Projects At A Glance

The following summary provides brief thumbnail sketches of the new multidisciplinary and interdisciplinary programs which will be made possible by the National Science Foundation grant and sketches of additional plans and purchases by the various departments benefiting from the allocation.

Center for Quantitative Studies $34,300

This proposed facility will meet a growing need for upgrading the level of sophistication in quantitative methods for faculty and student members at Mary Washington. As projected, a mathematical statistician will be hired to teach advanced courses in probability and statistics (an introductory course in each is now offered in the math and psychology departments, respectively); his duties will include offering an advanced course each year for faculty members, teaching methods of computer research, "trouble shooting" for ongoing quantitative student and faculty research, and helping with computer facilities.

Also requested in this project are funds for upgrading data reduction and data analysis in the social sciences. Two remote terminals with connection to the computer at the University of Virginia are currently in operation; one in the science building serves the natural science departments, the other in Chandler Hall serves the social sciences.

Nuclear Laboratory $50,371

The request for the establishment of a gamma-ray spectrometry, or nuclear, laboratory was specifically included in the proposal submitted by the Physics Department to allow this growing department to investigate certain properties of atomic nuclei.

The Physics Department now has two atomic physicists and this laboratory will give them a relatively inexpensive device for experimentation in the classroom and in the research lab.

The equipment has broader potential, however; it will be used by chemists and biologists for tracer studies, and by geologists for neutron automation approaches to the chemistry of minerals.

Advanced Seminar for Natural Sciences $21,000

Recognizing the growing need for interdepartmental communication, the natural science faculty has proposed a seminar for 20 junior and senior students to be conducted by two instructors from two science departments. Planned subjects of cooperative investigation are problems in geophysics and geochemistry; bio-chemistry and biophysics; animal behavior; and organic evolution.

Center for Preparation of Illustrations $2,615

The faculty has been somewhat handicapped in preparing illustrations for classroom and for papers and talks outside the classroom. This deficiency will be remedied with additional cameras, transparency makers and darkroom facilities. All materials are to remain in one room and will be available to all departments.

Linguistics $24,500

At present the College offers no course in general linguistics, a deficiency recognized by department evaluations and students demands. The COSIP proposal calls for the hiring of a linquist who would develop a linguistics program by offering first a broad course in general linguistics, and in subsequent years, appropriate advanced courses. Such diverse departments as Psychology, Sociology, Modern Foreign Languages, Classics, Asian Studies, and English have specifically endorsed courses in general linguistics as related field courses for their majors. The introductory course will serve each of these areas and additional training will be available on an individual basis.

Geography and Geology $27,574

The objectives of the proposal submitted by the Department of Geography and Geology serve the needs of both of these diverse fields. The geography section will expand its abilities to train prospective geographers by improving map making and map analysis equipment. The geography section has recently taken up new and commodious quarters in Monroe basement.

Geology began at Mary Washington in 1962 and has remained a one-man staff since that time. Now the way is open to strengthen the geology section by hiring a geochemist-petrologist. This position will not only fill out geology offerings, but will augment studies in other natural sciences and in interdisciplinary projects. Funds are also available for rescheduling the present geologist in new analytic methods in the field.

Equipment needs in Geology are provided by the multidisciplinary labs and present holdings in the Chemistry Department.

Chemistry $70,460

Foremost in the proposal advanced by the Department of Chemistry are plans for a new advanced program in chemical analysis, which would allow it to present chemistry in a more unified way without many of the conventional subdivisions, thereby providing the student with a more coherent and meaningful view of chemistry as an experimental science. Much has already been done in this direction and this grant completes present plans.

Implementation of such a program calls for the purchase of new, more sophisticated equipment (such as a mass spectrometer which will permit the identification of compounds and the characterization of chemical reactions in all phases of chemistry); the availability of a digital data acquisition system and an analog computer system; the upgrading of the existing emission spectrographic laboratory; and some additional faculty training.

Also projected by the Department are plans for an expansion of the faculty-student research project on the autoxidation of tissue lipids which has been pursued since 1966; plans for an upgrading of the general chemistry laboratory program; and the purchase of supplementary library materials.

Biology $51,498

The Department of Biology states that the COSIP grant can best assist the Department by upgrading experimental equipment thereby strengthening the role of individual investigation in this rapidly evolving field.

The proposal calls for major purchases of equipment in the fields of cellular physiology, marine biology, human anatomy and physiology, and histology. Among the needs in cellular physiology are those for a preparative ultracentrifuge and a spectrophotometer; while in marine biology, a new summer course taught on the Chesapeake Bay, plans call for the purchase of a fully equipped 40-foot work boat for use on the Bay and its tributaries, a smaller work boat and a variety of collecting and recording equipment.

Purchases for improving the human anatomy and physiology area of study include equipment to record body functions and better facilities for preserved specimens. Histology plans include a microtome, a tissue culture hood and individual study slides.

Genetics, parasitology, and other courses will also be improved.

Physics and Astroomy $88,516

Citing the fact that the experimental aspects of its curriculum has been unable to keep pace with the theoretical developments, the Department of Physics and Astronomy listed the need for equipment for demonstration and student work in existing laboratory courses as its top priority.

Foremost among the projects is to be the establishment of a Nuclear Spectroscopy laboratory sophisticated enough to allow meaningful research while introducing the students to the field. This facility will be created in cooperation with Chemistry and Geology.

The proposal also calls for equipment for revised courses in electronics and optics. Two telescopes and an attached camera will enable intensification of observation in astronomy. The telescopes will be housed in a domed observatory situated on the roof of the science building.

Additional funds are to be used for purchase of other educational and research equipment, for further faculty training, and for reference materials.

Psychology $44,814

The Department of Psychology is in the process of upgrading the experimental approach to the science of psychology, an approach which was initiated six years ago when a major revision of course offerings was undertaken, laboratories were established, and new staff members with experimental training were added.

The Department's greatest needs, therefore, are for equipment to increase the range and quality of laboratory courses. The COSIP allocation would be used to purchase additional equipment to be used in experimental psychology, human learning, psychological tests and measurements, and physiological psychology.

Plans also call for the purchase of educational films and for the purchase of the data analysis equipment.

Rappahannock River Ecology Studies $34,587

Because of the growing student interest in ecology and because of the interest and training of several faculty members from the departments of biology, chemistry, and geology, an ecological study of the Rappahannock River, which runs through Fredericksburg, has been proposed.

The proposal calls for the establishment of a continuing study program to describe, map and analyze the Rappahannock in its completed range of ecological zones and to determine natural and artificial controls in this ecological system. It is to be a long term study which will stimulate students and faculty to keep abreast of rapid developments of ecology and make contributions to this growth.

Such a project would be particularly interesting locally and generally if and when the proposed Salem Dam was constructed on the river above Fredericksburg. Such a dam would result in many biogeographical changes in the Rappahannock system which should be scientifically recorded.

Three faculty members and six students from the interested departments will serve on the project which will continue on a year round basis, although support from COSIP applies only to summer study.

X-ray Diffraction and Fluorescence Laboratory $40,582

The acquisition of an x-ray diffraction and fluorescence laboratory will enable the determination of crystalline structures and rapid, non - destructive chemical analyses. Research in additional study areas will be opened in the several natural sciences.

Needs for such a laboratory have been specifically ascertained by the departments of chemistry, geology and geography, and physics; and tools will also aid interdisciplinary science programs.

Such a facility is in common use in science and student acquaintance with this equipment is considered essential for modern training in science.

Economics and Political Science, and Sociology, $27,250

The proposal for the Department of Economics and Political Science reflects an effort to develop and implement a quantitative and scientific instructional and research capability for both the economics and political science divisions of the department.

Included in the proposal is a request for a visiting instructor in quantitative economics, and for basic voting behavior and public opinion data sets, and datea processing equipment. Further, members of the faculty will take advanced training in quantitative methods.

The Sociology Department is likewise intensifying quantitative aspects and is to participate in appropriate interdisciplinary projects of the total program.

Education Around The World

By Edward Alvey, Jr.

In March and early April, 1970, I was one of a group of educators who made a world tour in observance of International Education Year, as 1970 has been designated by UNESCO.

Mainly college presidents, deans, and professors, we were members of the Comparative and International Education Society, an organization devoted to the study of educatioo in other countries. Dr. Gerald Read, director of international seminars, and a professor at Kent State University, arranged the tour.

We were privileged to visit schools and universities in seven countries. Local committees of educators and government officials set up seminars, lectures, and visits to educational institutions. These committees also arranged social activities, sight-seeing tours, and opportunities for informal association with educational leaders and students in the countries visited.

Our first stop was Geneva, where we visited a new experimental junior high school, known as a College d'Orientation, developed to provide exploration of ability and conferences with counselors before the student is assigned to a specialized program leading to university admission, preparation for clerical, commercial, or elementary teaching careers, or skilled vocational training, such as watch making, electrical work, auto mechanics, and the like.

The Swiss are a highly literate natioo, stemming perhaps from John Calvin's insistence upon popular education during the many years he resided and preached in Geneva. In 1559 he founded what became the University of Geneva. Higher educatioo, bowever, is quite selective, with less than 10 per cent of the secondary school graduates enrolled in universities. Standards are high, and competition is keen.

The old League of Natinns building now houses the International Bureau of Education, recently affiliated with UNESCO. Its role is primarily statistical and bortatory. Many nations currently have exhibits of their educational systems there: pictures, textbooks, syllabi, and samples of student work.

In Geneva also is the International School, founded in 1924 and the first of its kind in the world. There are boys and girls from 60 countries in the student body of 1,600. International understanding is stressed. As the headmaster out it, "Our greatest problem is developing mutual understanding and tolerance without replacing pride in national culture." Then he added with a charming smile, "And this is a vast and insoluble problem."

A snowy flight by Scandinavian Air System plane brought us to Moscow, where Intourist buses and guides were awaiting us at the airport. These guides are all young women—vivacious, intelligent, and efficient. They are excellent linguists, mostly graduates of the Institute of Foreign Languages, which we visited one afternoon. A faculty of 700 offers instruction in many foreign languages, of which English is the most popular.

In Moscow there are 82 schools which teach English from the second grade on. The U.S.S.R. has a ten-year school system—six years elementary and four years secondary—with classes meeting six days a week for a long school day. Assignments are rigorous, and there is much emphasis upon final examinations, prepared jointly by the Ministry of Education and the Trade Union of Teachers.

The latter organization, our hosts in U.S.S.R., embraces all teachers from kindergarten through the university. It sets working conditions, teaching hours, salaries, syllabi, etc. for the schools.

The State University of Moscow, whose 40-story central building is so often pictured, is the pride of the Soviets. There are 3,000 foreign students from over 70 countries. Upon inquiry we learned that there are a few Americans in the graduate schools, but none among the 28,000 undergraduate students.

Our local committee had arranged for us to be housed in the new Hotel Russia, the largest in the world, with some 6,000 rooms. The committee had also arranged for us to see, on successive nights, the Bolshni Ballet, the State Opera, and the famous Moscow Circus with its performing bears.

I got the impression that there was more warmth of feeling towards Americans when I was here five years ago. No one was unfriendly. However, there was not the desire to practice English by talking with Americans which I had observed before.

From Moscow we flew by Aeroflot to Ankara, Turkey, for a four-day visit. Demonstrations by a small group of university students protesting the pro-western attitude of the government caused our visits to schools and universities to be cancelled, after elaborate preparations had been made for us. We did spend most of a day at a Higher Vocational Teacher-Training School for Women, an elaborately housed and equipped institutin offering preparatinn for teaching home economics, applied art, music, dietetics, nursery school, and other careers open to women.

The Hittite Museum alone is worth a visit to Ankara. It houses a wealth of relics of the Neolithic, Early Bronze, Assyrian, and Hittite periods, with vessels, vases, figurines, and jewelry dating back to 2000 B.C.

We also visited the archeological excavations at Gordion, fifty miles from Ankara, famous as the place where Alexander the Great cut the Gordion knot and also at the home of Midas, with his golden store.

There are thousands of U.S. Air Force personnel based near Ankara. The principal of the depeodents' school told me he had an enrollment of over 1,200 in grades 1-12. We were entertained at the Officers Club, where I met the Ambassador and his wife. Much to my surprise, the latter immediately greeted me by name, having attended Mary Washington not so many years ago.

From Ankara we flew by Turkish Airlines to Beirut, Lebanon, a thriving and attractive city famous for its shops, hotels, beaches, and educational institutions. The American University of Beirut is known throughout the Near East for its medical school and hospital, which serves many of the oil-rich rulers of neighboring Arab states.

Thanks to the interest and enthusiasm of a friend from Richmond who heads the Department of Obstetrics and Gynecology at the University, I was able to visit the rich archeological remains at Tyre, Sidon, and Biblas, all famous cities of antiquity located along the Mediterranean. It was tantalizing to be only thirty miles from Jerusalem at one point, but the border was closed.

Perhaps our most interesting archeological trip was to Baalbek, on the road to Damascus, considered to be the best preserved Roman remains in the world. There are temples to Jupiter, Venus, and Mercury. The Romans built these to supplant Phoenician shrines devoted to the worship of other deities. When Constantine was converted to Christianity, the temples to the Roman Gods were no longer maintained. The temple to Bacchus is remarkably well preserved, with its rows of stately marble columns.

At Beirut we visited a variety of educational institutions, including not only the Americao University of Beirut, which has 37 buildings located along the Mediterranean just below the main business sectino of the city, but also the Beirut Arab University founded in 1960, largely with funds and faculty from the Universities of Alexandria and Cairo. The United Arab Republic has contributed heavily to the support of this project as a symbol of U.A.R. leadership in the Arab world. Its buildings and facilities are most modern, with air-conditioning, high-speed push-button elevators, and the like. Students are enrolled from several Arab countries, but the institution has far to go to rival the American University of Beirut, which celebrated its centennial in 1967. From the latter over 14,000 graduates from 60 countries have gone out to serve their fellowman in law, medicine, nursing, government, and science. Currently AUB has an enrollment of about 3,000 students representing 50 nationalities.

We left Beirut by Air India for an all-night flight to Bangkok, with brief stops at Kuwait, Bombay, and New Delhi. At Bangkok we were exactly half-way around the world, with a 12-hour difference in time.

This Eastern city presents amazing contrasts. There are modern luxury hotels of 16 and 18 stories and miles of shacks on stilts built along the canals. Early Sunday morning we visited the floating market, where tropical fruits and vegetables are sold from boats, along with Thai silk, flowers, native crafts, and other products of the region.

All the activities of life went on before us as we chugged along in our little boat for about 25 miles of the canals. We passed many Buddist temples, rich with gold leaf, fronting on the canals. There are 383 Buddist temples in this city of 3,000,000.

The Grand Palace with its gold-encrusted shrines is an impressive sight. The king now lives in an air-conditioned palace about four miles away. However, the Grand Palace is still used for state occasions. President Sukarno, of Indonesia, was staying there while making a state visit to Thailand.

The word Siam means literally "Land of the Yellow Gold." In 1939 the name was changed to Thailand. The word Thai means "free."

The Ministry of Education planned an elaborate series of activities for us, both educational and recreational. We saw a complete performance of Thai dancing. The costumes were gorgeous and the girls lovely in their conical-shaped tall hats encrusted with reflecting stones, strings of beads, and shining bangles. We were also taken to see elephants working, silk thread spun on spinning wheels, native regional dancing, Thai boxing, and fencing with raw swords.

Our tour of the University of Thailand included a luncheon with native delicacies. There are now many women students enrolled. All wear blue skirts below the knees, white blouses, white socks, and loafers.

From the crowded airport at Bangkok we left by Thai Airlines for Hong Kong. As we dined sumptuously on a course dinner, served aloft, we flew right over Vietnam at a height of 36,000 feet. It was hard to believe that men were fighting and dying below us as our French caravel jet sped quietly far above that unhappy land.

At Hong Kong we spent most of one day, including lunch, at the Chinese University of Hong Kong. We had excellent lectures on public and private education

Educators Were Feted in Tokyo

on the islands, the relations with Red China, and higher education. The latter is extremely selective with only a few thousand university students in a population of four million.

The British University of Hong Kong carries on its instruction in English. There is an excellent medical school, with clinical facilities available in the Queen Mary Hospital nearby. The University suffered some damage when the Japanese invaded in World War II.

Hong Kong is a crowded, bustling, thriving city. The native city, Kowloon, has a density of population of 250,000 persons per square mile. Hong Kong island, reached by frequent ferry service, has many of the fine homes and hotels, along with government buildings and consulates. This is the "British owned" section of the colony. However, the population as a whole is 99 per cent Chinese, over half of whom are under 18 years of age.

Red China is close by. There is no Berlin wall, but border guards do restrict passage, mainly into Hong Kong where there are already 1,500,000 refugees. In spite of heroic efforts to house and feed them, there are still large shanty-towns of squatters who live literally, from hand-to-mouth.

Hong Kong has thousands of little shops where every type of merchandise is sold at rock-bottom prices. It is possible to have a beautifully tailored suit made in two or three days with fittings spaced conveniently. Several of us had suits made.

From Hong Kong we flew by Air Cathay to Tokyo. Once again the local committee had planned well for us. There were visits to universities, secondary schools, and to places of interest such as the Imperial Palace.

One day was spent at Expo 70, where 77 nations have erected pavilions. I stood in line for two hours to get into the United States pavilion, the most popular at the exposition. It is a low-lying, translucent structure, with the roof supported by air pressure.

The U.S. exhibit has drawn mixed reactions. It is really a melange, with Babe Ruth's old uniform, photographs of movie stars of the past, Indian relics, a Pennsylvania Dutch room, and other examples of Americana. The feature is the moon exploration section, which has on display rocks from the moon, a scarred Apollo spacecraft, suits worn by Astronauts, etc. Japanese visitors were busy with their cameras as they chatted excitedly.

We returned to Tokyo by the New Tokaido Line, which makes the 320-mile run in about three hours. At times a speed of 137 miles per hour is reached, but there is no vibration and little noise in the sound-proofed ten-car trains.

A day spent at Tamagowa University was a fitting climax to our visit.

Dr. Kuniyoshi Obara, the 83-year-old founder, believes that education should develop the whole man, ethically and physically, as well as intellectually.

After observing classes of many types, we were treated to a gourmet luncheon, followed by exhibitions of folk dancing, Japanese fencing, judo, and Danish gymnastics. The program in the gymnasium concluded with a Samurai sword ritual combat performed by two elderly professors.

At the Tokyo airport we boarded a Japan Air Lines plane for home. Several of us broke the long flight with a short stopover in Hawaii, where we recuperated briefly from a strenuous but most interesting and informative Round-the-World Educational Seminar in commemoration of International Education Year 1970.

L. Clyde Carter Attends White House Children's Conference

Dr. L. Clyde Carter, Jr., Professor of Sociology at Mary Washington College, has been named by Governor Linwood Holton to serve as a delegate from Virginia to the White House Conference on Children to be held in Washington, D.C., December 13-19.

Dr. Carter, who will be one of about 35 delegates from Virginia, has been serving as Region 4 Chairman of the Steering Committee which has been making plans for Virginia's part in the Conference.

Unlike past sessions on children and youth, the 1970 meeting will be divided into two conferences: the first dealing with children to be held in December, and the second dealing with youth to be held in February, 1971.

Chancellor Comments On Management Study

The following article appeared in the Free Lance-Star on December 3, 1970, and is reprinted with that publication's permission.

By JOHN GOOLRICK

Mary Washington College Chancellor Grellet Simpson said today he found merit in some recommendations concerning MWC in the Governor's Management Study revealed yesterday.

Simpson said he felt the most worthwhile recommendation was one suggesting that the college sell real estate it owns but is not needed for plans of the school. The real estate includes a tract of about 108 acres in Spotsylvania and a 45-acre tract in the city which is part of the Brompton property and abuts Westmont Subdivision.

The chancellor said, however, that under current state policy the proceeds from sale of land which was donated to a school goes directly back to the school while the proceeds from land purchased by the state goes back to the state treasury when the land is sold.

The Spotsylvania property — known as the "Harnett" — was donated, said Simpson, and if sold the proceeds would go directly to MWC.

However, he added, the land in the city was purchased by the state. "I would certainly not make any recommendation that this property be put on the market," he said, "unless we had some delinite assurance the funds from the sale would be allocated to the college." Simpson said he felt there was a possibility some agreement could be worked out with the state legislature to pledge funds from sale of the property to MWC's capital outlay program.

The report said that appraised value of the property and timber is about $136,000.

Another recommendation in the report was that the college's nine-hole golf course should be made a self-supporting auxiliary enterprise with cost of operation covered by a student fee, faculty fee and guest privilege charge.

Simpson said the primary purpose of the golf course is to provide preliminary golf instruction to interested students. "I would have to think a long while before I could accept the idea of spending a considerable sum of money to put the course in the kind of shape it would have to be in if operated on a public basis," said Simpson. He said he felt the recommendation on the golf course was not realistic.

A third point in the study was that MWC should recover physical plant costs from auxiliary enterprises in accordance with a formula used by Radford College. It suggested that total maintenance and operations appropriations for the college should be reduced by $184,500 and charges to users of auxiliary enterprises increased to generate this amount of income.

This would mean, according to Edward Allison, college comptroller, that student fees would have to be raised for such auxiliary enterprises as dormitories, the dining hall, laundry and college shop if the recommendation were implemented. Allison said the report was, in effect, contending that such auxiliary enterprises are being at least partially subsidized at present by funds collected for instructional purposes.

Getting To The Root Of Things

Two MWC students make an "in depth" study of the soil conditions at a site near Fredericksburg. They were among nearly 100 who participated in the Second Annual Soil-Ecology Field Day held at the College in November. The event was sponsored by the plant ecology division of the Department of Biology and lead by members of the VPI agronomy staff, the MWC biology staff and the Virginia Soil Survey Division.

Fredericksburg 22401

'13 Lucy Kennedy Boyle
Ice Pond Road
Milaneil 23117

Anne Ware Bedinger
The Jefferson Hotel
Richmond 23211

Missed the deadline on the last issue of the Alumnae News so no news. Not much news from the class members but they responded to the Alumnae Fund to a 57 percentage, which is our highwater mark. Let's beat it for next year.

We were sorry to read of the passing of Ethel Nash '14 ('33) who looked unbelievably young at the 50 Homecoming.

The FIRST Battlefield was published in 1913. The late Belle Pearce Beverly was Editor, Buford Lyne Herndon Asst. Editor, and Guy Wilson Currie was Business Manager

Lucy Kennedy Boyle celebrated her Golden Wedding anniversary this year. Her daughter Jean Boyle Owen, 43, arranged the affair and had a large attendance, with several members present of the original wedding party including the Maid of Honor, Fannie Kennedy '13. Have had letters from Julia Bullard Urquhart, Anne Nicholas, and Lettie Broaddus, all of whom are well and active in various lines. Anne Lutane Ware Bedinger spent the summer at Riveredge, enjoying her grandchildren, but is returning at the Jefferson in Richmond, away from the "cauld blasts" of the Rappahannock. She reports that Betsy Tabb and Alice Chilton Chowning are well and active. Anne Lutane was the only member of our Class to attend the 70 Homecoming. Contributions to the Alumnae Fund should be made soon so as to be listed in the Alumnae News and be available at the '71 Homecoming. Let's go for 100 per cent next year. The 1971 Homecoming will be earlier this year, April 16-18. Anne Lutane Bedinger hasn't missed a Homecoming since the one commemorating our 50th anniversary. Let's try to have a better attendance this year and with school in session we can see if the School is living up to the "image" it has developed in some newspapers over the State.

We are glad that Ruth Carter Vellines '15 is back home again after her hospitalization

A brief note from each of you would be very helpful in getting up this column. Tell us what you have been doing, golden anniversaries or family, bright grandchildren, your operations, hobbies, etc. Remember that anyone that was in college in '13 and still going is bound to be interesting. So write.

Lucy

Several girls from the "Old School" met for lunch in Tappahannock in September: Nannie Oliver Foster '14; Mary Snead '14, Helen Cabell Phillips; Snooks Ellis Sutton '21; Catharine Ware '14, Bertha Scott Bass '16; and Anne Ware Bedinger. We had a wonderful time!

Yours truly,

Anne W. Bedinger

Dear Classmates:

I hope you enjoyed the latest Alumnae news telling of the Homecoming last June. Now it is time for another column. Letters have been recieved from Virginia Bolen, Elsie Wood Rice, Margaret Savre Ransone and Edna Gibbs Hazlett. With more of you would write about your families and activities, we'd love.

Virginia Bolen and her sister planned for a reunion of the Bolens in August at old Alum Springs Church in Culpeper. Approximately 40 Bolens were present, some coming from as far away as Independence, Missouri. This was a great occasion for the relatives and much delicious food was enjoyed. Mary George, Virginia's sister, had just had a hospital experience but was released for a few hours to attend the celebration. She has now improved and is back at her job as librarian for the high school.

Edna keeps busy teaching a Sunday School class and working in the Woman's Missionary Society and Circle. In addition to these duties, she is able to do her house and yard work. Her daughter has an assistantship to Winthrop College and is working on her Master's Degree. She is also helping her professor in Reading and hopes some day to be a reading specialist. Edna had heard from Calvin Twiddy, Alice's husband. He, with his daughter, was on vacation at Nags Head, North Carolina.

Elsie Rice writes that her family of great grandchildren is increasing fast; three this year, among them twin boys. She heard recently from Sarah Gouldman McAllister, who keeps her usual health. Elsie had met up with Elizabeth McDonnell in the grocery store. She is very well, but keeps her medication handy.

Josephine Jerrell White's son has bought a home in Stafford County and teaches at Germanna Community College. Now Jo enjoys having him and family nearby because she spends most of her time at home now that she has sold her automobile Jo keeps very well and happy.

Margaret wrote that she had been entertaining relatives; here and her late husband's brothers. She receives letters from Edna, Mary Temple Coleman Theimer and Tee Lynch. Janet LaCoviss Hanlin had been spending some time visiting her son and family in North Carolina.

A phone chat with Etticenette! Her summer had been spent in going back and forth from Richmond to "Snuffy" in Essex County. Many homecomings and picnics had etiumed her days. She often sees old MWC girls while in Essex; namely, Mary and Maxie Acree '14, Josephine Spindle '17 and Anne Lutane Ware Bedinger. Even saw Lucy Gray Richardson of California at an anniversary of historic Bruington Church. Also, she had a letter from the Tyners, who keep well and happy in their limited activities. Our class will always have happy memories of this fine couple who have given most of their lives in the educational field.

My thanks to Kathleen Scott Warren '14 for her nice card and for saying she enjoys my letters in the "News."

Waverly Lawson McCauley '13 surprised me recently with a nice note. I knew her in "1911", but haven't seen her in a long time.

I inadvertently failed to mention Lorena Rear Neill '11 here with our group at the Homecoming. I missed eating with her this time.

I had a phone chat with Beulmear Linthicum Masters before Homecoming, but illness caused me to fail telling about it. Forgive me, Belle. She told me that she spends much time visiting with her daughter on the Wicomico River. Doesn't care for sailing, but enjoys swimming at the Country Club in Richmond. She is active in the Woman's Club and her church.

Elsie Wood Rice did not attend the Alumnae Council Convention on November 7th as planned. We hope it was worthwhile to the alumnae.

On November 10th I was at the Jefferson Hotel for a Real Daughter's Luncheon of the United Daughters of the Confederacy and met with Anne Lutane Ware Bedinger, who lives there in the winter. We had a most delightful visit in her room. She gave me a clipping from the newspaper concerning Mary Temple Coleman Theimer. On October 20, 1970 Erle and Eugene Theimer sons of Mary Temple Coleman, gave a reception at the Bull and Bear Club in Richmond on the occasion of their parents, Mr. and Mrs. Erle K. Theimer of Urbanna, Golden Wedding Anniversary. Congratulations to Erle and Mary Temple.

About a month ago Lucy Kennedy Boyle and her husband stopped to visit me. I found their note. I was with my sister that day. I regretted not seeing them. Good things do happen to all of us and this was one

WRITE!

Love,

Ruth

'17 Imogen Ellis Daniel
Weems 22576

Why didn't you meet us at Homecoming in June? Lillie Michie Behrendt and myself were the only ones of the Class '17 there, but my sister Thelma Ellis Sutton '21 and my daughter, Imogen Daniel Cummins '50 and her husband were there. It was the first time I had seen Bertha Scott Bass since she graduated in June '16. Anne Lutane Ware Bedinger '13 is always the life of the party.

Bertha Scott Bass spent a few days in the summer with Lillie Michie Behrendt in her apartment in Charlottesville.

Our family was again saddened this summer. My sister, Thelma Ellis Sutton '21 lost her husband, John T. on July 11 from a heart attack.

Michie spent Labor Day weekend in Irvington with her daughter, doctor son-in-law, and family. I visited her there and on Sunday she and Rachel Messick Buchan had lunch with my daughter and me. On Monday she entertained Rachel, Imogen D., and me for lunch at Windmill Point. Rachel then took us on a tour of the Golf Lodge of The Tides Inn and had refreshing drinks, being a very hot day.

Please take a few minutes to write me something about yourself. An interesting letter will depend on you.

'18 Louise Milbourne Clarke
9008 Glenhope Road
Richmond 23235

Haven't heard from any of you "girls" lately, so I can't report any news. Try to do better please.

It is my sincere wish that you have a mighty fine Christmas.

Start planning now to meet me at "Homecoming."

'19 Grace Mason Scruggs
5639 Pinebranch Road
Columbia, S.C. 29206

I'm really sorry for my long silence. Really have had a good excuse—I've been busy and writing has been pushed to the background. The girls of Class '19 must have contracted the same disease for I have not heard from them and consequently—there was no news.

We have moved from Anderson, S.C. to Columbia, S.C. We had our home in Anderson and had no idea of ever moving. Two of our children live here in Columbia and they urged us to move. Circumstances were such that we thought it wise so here we are, living less than five minutes from our daughter Margaret Anne and her family and about fifteen minutes from our eldest son and his family. What a privilege to be this near when there were times when an ocean and a continent divided us! This, of course, was when we were in China and later Taiwan. Our other son, John and his family are in Atlanta, Ga.

I'll be writing again soon, I hope.

Grace

The Alumnae Office received a short note from Helen Powell Neal.

"I was married in 1925 and for a few years was a busy housewife and mother. After I lost my husband I went back to teaching in 1939 and retired last year.

For several years I have lived alone as both my daughter and son are married and have families of their own. I now have three grandchildren.

I, too, would like a 1924 Battlefield as mine was lost."

Very sincerely yours,
Helen

Lucy Houston Christian
Urbanna 23175

A fine letter from Dorothy Chiles Hodnette I'll not try to condense it, just share it as it is Let us have some other letters.

Dear Lucy,

Was so happy to see that you and Juliet were going to act as agents for the Class of 1926 and on that basis and for that reason, I am writing you and hope you will share this with her! My my English teacher would be horrified with the above sentence!

I lost my husband in 1966, 2 years after he retired and we moved to Tuscaloosa. The home which we built on a lake 12 miles from Tuscaloosa burned that fall after an explosion and a granddaughter died in the fire. They were visiting me at the time, no others were hurt.

I decided to stay here and have a home in town, but have built a vacation house at Lake Grace, couldn't let the sears stay there and we have fun there—it is such a beautiful spot.

I have 2 daughters. One attended Auburn University and the other the University of Alabama here at Tuscaloosa. Both attended the University of Virginia for graduate school. Lucy became a Doctor M.D. and Hope received her Masters in Physics. Both are married to doctors. Dr. Lucy lives in Lynchburg and Hope in Radford. So I do travel to Virginia often. I have 6 grandchildren ranging in age from 9 to

1½ years!

I love living in Tuscaloosa and find having a University in the town most stimulating and interesting!

Dr. Simpson has just written to ask me to represent Mary Washington at the inauguration of the new president here in September. I am honored and will enjoy it since I know David Mathews, the President to be inaugurated, quite well. He is a fine young man.

I am working with the Girl Scouts here as I have done off and on for many years. When I came here I found they needed experienced people, so I became involved. Have been President for 3 years. Have another to go. It is a fine movement to girls and my only regret is that more young women do not volunteer to become involved!

I didn't mean to write so much, but hope that you and Juliet will send me a note and let me know how things are with you. I would love to see you both and hope if you ever come down this way, you will make a stop to see me. The Welcome mat will be out!"

Fondly,

Dorothy Chiles Hodnette

Arlington 22204

The Alumnae Association received a most interesting letter from **Rachael Wingfield** DeAngelo telling of her work in Hawaii. I would like to share her letter with you in to'to, but space does not permit. Here are a few highlights of her many achievements:

She is now a full professor in the Graduate School of Library Studies, University of Hawaii.

Last January she submitted a proposal for an Institute on Pacific Traditional Literature and CRAL Interpretation which was accepted by USCE. During this past summer she prepared and directed the Institute.

At present she is serving as Chairman of the Professional Status and Growth Committee on the American Association of School Librarians and is Issue Editor of the Drexel Library Quarterly.

Congratulations on your many successes, Rachael, but, most of all, we are proud of your loyalty to MWC.

Carmeo Mejia Weiler is walking on clouds these days. As of last April she is a GRANDMOTHER. Our best wishes to the happy parents and grandparents.

I still have copies of the Class Directory. Would be most happy to fill any requests.

Please, won't more write and share your experiences with us? It is a real thrill to hear from old classmates and to know how they are.

Hope Farm, N. Y. 12532

The following telegram was received on the Monday after the 35th reunion. "Hi, Greetings and Happy Remembrances on our 35th reunion. I would dearly love to be with you today, but time and distance has prevented it, however. I shall be with you in spirit. Time has marched on and it seems such a short time ago that we were dashing to Dr. Darters class, or Dr. Shankles English literature. We are saddened today by the recent passing of Mrs. Bushnell, the greatest influence in our lives, I am sure she will always see us through. All the best for a great reunion and fondest memories." **Lorry Folger** Duffy

Six of the Class of 1935 enjoyed being back for the reunion. It certainly was a thrill to have **Frances Tillery** Kirby come up to be with us from Florida. Only wished that more could have attended.

Recently a letter from **Grace E. Herr** made this comment on the group picture. It really brought a chuckle when I read it. How about this for dry humor? "Considering the burden of the thirty five years we look pretty good!"

Marden Hayes Bareford, who also attended the reunion has sent a most interesting account. "John and I with our two daughters, Marleen, a junior at Westhampton College, and Charlotte Ann, a freshman at Westhampton and our son, John M., Jr., a senior at Christ Church School for Boys, had a delightful vacation in Grand Bahama Islands this past summer. We attended the Lamba Chi Alpha Fraternity National Convention there. This is the bi-annual meeting and the third one we've attended as a family: one in France Lick, Indiana, 1966; one in Dallas, Texas, in 1968; and this one in Grand Bahama in 1970. The fraternity has 110,000 members and chapters on 170 college campuses in the United States and Canada. It is the 5th largest fraternity in the United States and Canada. At the meeting this summer John was honored by being elected one of the nine national officers: the third one ever to serve from Virginia and the first one from the Richmond area. He will be traveling to various fraternity functions such as the board meeting in Indianapolis, Indiana in January, 1971, and the seminar at Memphis State University in Tennessee, in August 1971. In August 1972 we will be going to Portland, Ore. for the next national assembly. The other eight national officers include, attorneys from California and Missouri; the secretary of the State of Oregon, a former judge from Louisiana; a college professor; a business man and an Episcopal Rector."

Kathryo Lee Gray '36 is still located in Elmira, N.Y. She is much interested in raising and showing Shetland Sheep dogs (minature collies).

Ruth Whitehead Owen '35 is now living in Millbrook, N. Y. She and her husband, Willard, a retired army Col. have a most charming home. As Millbrook is not far from the Greer School, we enjoyed renewing old college friendships recently.

After spending the past ten years at Saint Joseph Villa outside of Richmond—my address is now Greer School, Hope Farm, N. Y. This school which is a self contained children's community for around 200 boys and girls from New England and the New York City area is outstanding in its field. In fact, it is the only school approved by New York state Regents standard for granting credit for field work for degrees in social service and child care. It is quite a different type of work for me. Greer has an experimental boys group which operates differently from the rest of the school. The group is composed of eight boys, ages nine to thirteen who need specialized supervision. Working directly with them are four counselors, a social service coordinator and a psychologist. It is rather fascinating — no day or hour is ever the same but there is never a dull moment! It will keep me from getting old as there is no time to worry about that.

If any of you are ever in the vicinity, please drop in. It is a beautiful location with the Catskills plainly visible from the School campus

'36

Ethel Nelson Wetmore
107 Manteo Avenue
Hampton 23361

Dear Classmates:

I hope you've marked April 16-18 on your calendars, and that you'll be in Fredericksburg for our THIRTY-FIFTH reunion. **Helen Harris** Lassahan will be reunion chairman, and we are looking forward to a good time. We must make reservations at a motel for spending the night. Meals will be furnished by the College.

The class extends its sympathy to **Thelma Evans** Douthat on the death of her father this past summer.

Several of the class wrote me after receiving the last "Alumnae News". **Frances Gaines** Bruin lives in Alexandria, only a few blocks from **Vernie Blookinship** Knight. They see each other at least once a month because they are both on a board that does volunteer work for a hospital. Frances wrote that Vernie is as lovely as ever. Frances has a married daughter living in Atlanta, Ga. She and her husband are the proud grandparents of two little girls. When this daughter attended Longwood, Frances had the opportunity to see Dr. Moss a number of times. Her son is a senior at Seattle Pacific College in the State of Washington, and her youngest daughter is a busy high school junior. Thanks for your letter, Frances, and I'm so happy you are planning to come to the reunion in April.

Harriet Bruce Rhodes has written me twice, the first time to express sympathy on the death of my father last March. Harriet had a son born July 16, 1957, ten months after my Jonny — and hers is named Johny. Her three older children are married. The third son is a junior at Randolph Macon. She wrote that Mary-Paul Phillips Lacy lives in Claremont, Calif., and has two sons and a daughter. In a picture she sent Harriet a little over a year ago, Harriet noted how little Mary-Paul had changed. Her family is a very handsome one, too. Harriet's mother has lived with her for the past thirteen years. It is very sad that her mother is not able to see to do the things which would be such a comfort and time consumer in these less demanding years.

In "Missing Persons" in the last issue of the "News", it was Sue Phillips whose address is unknown, and not Mary-Paul's. Does anyone know where Sue and the others listed are? We found out that **Mildred Ware** Barta lives in Ottawa, Illinois. Her husband is a psychiatrist, and her eldest son is a doctor. Her twin daughters are married, and there are also three more sons. Our thanks to **Harriet Bruce** Rhodes and **Merle Moss** Pleasants, '23, (a first cousin of Mildred's) for sending us her address.

Helen Harris Lassahan wrote her husband had another bout with a crazy yellow jacket, and now they are equipped with antihistamine tablets and an adrenalin needle. In the last "News" I wrote they were all set to come to our meeting in Westmoreland State Park last July when Lou got stung by a yellow jacket and had to go to the emergency room of a hospital. They couldn't make the camping trip they had planned along with our meeting. Helen and her husband both teach in Baltimore. We all thank you, Helen, for consenting to be our reunion Chairman, and know you'll do a good job.

In connection with the Alumnae Council Convention held November 7 at the college, **Bill Wheeler** McCallum and I asked **Lucy Mae Copley** Scott, **Frances Lieheoow** Armstrong, and **Louise Otley** Graves, '38, to help with registration. They all live in Fredericksburg, and were a help and an inspiration. We hope to get the addresses of all graduates from our class, and as many other of our classmates as we can. If you know someone who you think may not get the "Alumnae News", please send her name and address to the Alumnae Office. **Frances Gaines** Bruin wrote she received the last "News" for the first time, and it was so wonderful to read the news of the "girls of '36".

With the help of **Mary Frances Rowe** Varner, I've been class agent for more than fifteen years and feel it is a rewarding job. I don't want to be selfish and keep it for the rest of my life, so I'll be glad to turn it over to anyone interested. Maybe you'll have a new approach to getting news. Thank all of you for the interest you've shown. May I say again, as I did last time, what a wonderful job **Bill Wheeler** McCallum is doing as third vice president, and the powerful force she is in her dedication to her Alma Mater. She lives in Newport News, and teaches ninth grade English at Carver High School. Her husband has retired from the Army. Her son and his wife also live in Newport News. Her daughter and her husband live in California and were evacuated twice during the recent fires there. Their home was saved, but the fire stopped only 150 yards away. **Aone Boyd McCallum** Freers, class of '64, told her parents that times like this make one realize material possessions don't matter.

Helen Battista has retired from teaching after being head of the Physical Education Dept. in the Farmington Conn. school.

Alma Bailey Taylor is living in Farmington, Conn. and teaching in the school system there.

Start planning now to join your classmates April 16-18. You'll be receiving a letter in the near future. See you then; the Lord willing

'37

Evelyn Riggs Ross
711 Connecticut Avenue
Norfolk 23508

Hello, out there!

Where in the world are you? How in the world are you? Why in the world do I want to know? Well, it's like this:

Once upon a time we spent one, two three, and even four years together "high on Marye's hilltop" (as the new one goes), our "eager voices singing, swelling high and clear" (as the old one went). We were the last class of the old school, State Teachers College. Since then, we have gone our separate ways. Most of us have kept in touch with some in our class. If we pool our news, there should be many things of interest for all, so let me hear from you. Even a post card will do.

It was gratifying to read that our class made a substantial contribution to the Alumnae Fund. My name was not among the list, thanks to my tardy ways

At least this news from me will keep the space for 1937 open in the next issue. We are sandwiched in between two very active classes, I note. With every issue of the News, I would feel "let down" not seeing news of '37—So I finally took time to "apply" for the job of agent. I cannot do this alone, so send me NEWS.

Whenever you drive through Nottoway on Route 460, stop at the Post Office as I always do. The friendly postmistress is **Martha Epes** Deane, one of my suitemates. My other suitemate, Selma Piland Johnston is still in Arlington. Her children are married or away at College. My roommate, **Pauline King**, is head of the Art Department at MWC. She lives in a lovely self-designed home on Sunken Road.

I believe I am the only one in Norfolk now. There was **Frances Sherman** Spencer, but she moved in 1964 to the midwest. She and her husband live on a farm, address Route One, Monroe City, Missouri, 63456. I saw her last in the fall of 1969 when her mother passed away and was buried here.

It is easy to discover news of our classmates, if only one asks the right people. I was chatting with one of our new teachers, Mrs. Johnson, soon after school opened. She happened to be the daughter of Lucy Wilkerson Burgess '40, who lives in Dahlgren and is Chairman of the Business Dept. at King George H.S. At the present time, she is serving as President of District A, Virginia Education Association.

Mary Crehan Martin is in Louisiana with a New Orleans address. Her daughter is married and Mary has joined the Grandmother's Club.

Betty Roberts, now Mrs. Paul Zehngraff is living in Naples, Fla. She and her husband have built a new home there. Paul is now retired from years in foreign service.

Pete Petersen Humphrey is leading an eventful life. She is retired from an actual job but still serves as town registrar of Voters and writes for two newspapers. Early in May, 1969, Stan and Pete lost everything they had when their home burned. During part of the time they did enjoy a months trip to Hawaii. After they returned it was time to begin plans for their younger daughter's wedding this past August. She and her husband are both teachers in Prince George County, Maryland. He is also doing graduate work at the University of Maryland. The Humphreys have three grandchildren, as their older daughter has three boys. The entire family was going to be together for the first time since 1965 in October. The older son was coming home with his bride from Texas.

This is my twenty-fifth year with the Norfolk Schools—my fifth year as librarian at Sewells Point Elementary. I am fairly active with the Norfolk Chapter of the Alumnae, but what I most look forward to each month is our bridge club, all MWC'ers. One of our members, Mary Hope Harcum '35, is at present serving with the American Red Cross in Japan. She has also had a tour of duty in Saigon

My older daughter, Caroline, is a freshman at Radford College, and my younger one, Lora, is at Maury High here. I am completing the very last thing for my M.S. degree here at old Dominion U.

I'll look forward to hearing from all of you.

Evelyn

'38 Helen Pressley Voris
5640 Old Lawyers Hill Rd.
Elkridge, Md 21227

It was interesting to spend a day in Fredericksburg recently and to attend the Alumnae Council Meeting. I arrived a bit late, but spent part of the day on campus enjoying a lovely fall day. The campus is still pretty. We were brought up-to-date on campus changes, and activities by representatives from the Administration, the faculty and the students. Having been through all of this with my college age children, I was able to take most of it in stride. **Louise Otley** Graves, **Irene Lundy** Brown '39, and **Eleanor Small** Overton gave bits and pieces of news. I should have taken notes. Louise has a daughter at Radford. **Jessie Crockett** Hopkins and I both have a daughter at Westhampton. **Louise Parris** Massie '39 has a high school senior who was taking her S.A.T. and may go to Westhampton next year. She was looking over the MWC campus. **Eleanor Small** Overton '40 was there from Raleigh. She reported that **Juanita Stokes** had died of cancer. She was seeking information about Jean Plante. **Bill Wheeler** McCallum '36 and **Ethel Nelson** Wetmore '36 were both there. Bill did her usual good job of organizing and presiding. Heard from **Margaret Ashby** Williams '39 who was at Dartmouth for a year during husband's sabbatical. I assume he is back at W. and L. The campus was lovely. First time I remember being back and having no building projects going on. Perhaps enrollment will level off. Please drop me a line at Christmas.

'39 Louise Harris Massie
Route 2, Box 90
Louisa 23093
Mary Helsabeck Townsend
Manquin 23106

This will be a sparse news report because no one has written about their summer activities. Please share with us some of your news for the next news issue.

Doris Stagg Pruden called and reported all was going well with them now that her husband is able to do some of the farm work. Let's hope his recovery from his back operation continues.

The news from **Mary Helsabeck** Townsend's family is that son James is back from Vietnam and is helping with the dairy farm operation. He has also built a new home. Mary Anne returned to Salem College and David to University of Georgia.

We hear **Myrtis Hall** O'Sullivan is proud of her first grandchild, a girl. Husband, Bill, has retired and is busy working at home. They have two boys in college. Mary and Kevin are in high school.

I enjoyed a visit from **Anna Mae Harris** '38 and brother Jere. Anna Mae teaches math at MWC.

Maude Brown McBride writes that she still enjoys teaching business. She has two grandsons and two granddaughters. Maude is now living in Stanford, North Carolina.

My son, Johnny, is in his second year at Virginia Polytechnic Institute and daughter, Becky, is active in her last year of high school. She attended the University of Richmond Summer School last summer to get a head start in college and enjoyed college life there very much.

Don't forget now that I'm looking for some letters from you, so please write.

'40 Maxine Morea Salle
Box 139
Moseley 23120

Eugenia Moore Basnight came all the way from Atlanta to be with us. She was one of the hostesses for the Saturday breakfast.

Jo Lee Fleet Edwards was not able to get to Homecoming. Her two daughters graduated from Mary Baldwin in '66 and '68. They have since married. Jo Lee has traveled much with her husband and has done some teaching along the way. Is now taking up tennis! She sees **Jamie Redwood** Witzel '41 occasionally. (Rosella was in Boston the day after HC and had a phone visit with Jo Lee in which Jo Lee sent her love to all of you.)

Charlotte Morgan Gunn is living in Rocky Mount, N.C. She was unable to attend HC due to her son's graduation from E. Carolina Univ.

Lee Wingate Keith Pappandreau had to teach June 6, so did not make it to all of the activities. (I know all about teaching make-up days on Saturdays.). She is teaching at Rappahannock Academy.

Eleanor Small Overton attended. I think her first Homecoming. She is so busy and has done so much. She is in business, while guiding five children toward worthwhile endeavors. She and her husband and family live in Raleigh.

Mabel Leyman Behrens attended and was a hostess for the breakfast, also. She has attended previous Homecomings.

Jane Hatcher Major and husband Bill were there. At the Class meeting Saturday afternoon we all thought Jane would make a grand class agent, but she finds she is too involved already.

Maxine Morea Salle showed briefly Saturday afternoon after attending graduation exercises at Longwood where her third daughter, Emily, took part. Two older daughters were married about a year ago. She is back teaching Home Economics again after teaching sixth and seventh grades for the past 10 years. (In the same school she started out in—Midlothian).

Rosella Tuck Davidson—Our thanks to her for her untiring help with the alumnae news and business all these years that she has been class agent. I'm sure we have felt closer because of her efforts to contact all the '40 classmates. She wanted someone else to take over and the few that met for the class meeting June 6 agreed to rotate the work of class agent. Hope you'll all be ready to take a turn.

Vicki Harris Massie was back again for June 6. She attended the previous homecomings. Still living in Louisa County.

Bess Dobbins Maxey was there on June 6 with daughter who attends MWC. She teaches in Powhatan County. A son just graduated from Univ. of N.C. and will go to the Univ. of Minn. for graduate work.

Ila Yeatts Olson came to her first homecoming, and came down with her husband and daughter. Ila is married to a New York lawyer who travels a great deal to Latin America. The Olsons have lived in Mexico, Guatemala and Venezuela. A son will be a sophomore at Columbia and another one in high school, plus a 12-year-old daughter.

Adeline Kirkpatrick Vines received a newsy letter that substituted for her presence June 6. She and her husband live in Richmond and have 3 sons—one at the Univ. of Va. and twins in high school. She had 3 sisters who also attended MWC.

Virginia Reel Winston was to attend as her daughter graduated from MWC, but I heard she broke her ankle which prevented her attendance.

Emma Ziegler Brown was presented a certificate by the Institute of Life Insurance for Leadership in helping to promote sound home and family life in the nation. This was presented during the General Federation of Women's Clubs Annual Convention in San Antonio in June.

Sophia Eiseman Fleischer. Rosella received a card from Sophia mailed from Brussels where she was visiting the Eisenhowers. Sophia was in Europe with her boss, Perle Mesta. Sounds like an exciting job with an exceptional boss!

Helen Minor Gibson—A note from her in Radford, Va. She teaches and her husband is Dean of the Education Dept. at Radford College. They settled here in July and previously had lived in various parts of the state. She saw **Elizabeth Hall** Lundy several years ago and thinks she is in Va. now. Her husband being a Methodist bishop had been in Milav.

There is little news this time, but I am proud of the 44 contributors and $425 to the MWC Fund. Let's add lots of new names to the list in 70-71. We can do it! Send something NOW.

The June Alumnae News had a list marked 1944 which had a number of "missing persons" from 1943. Many of these, 14 in fact, I could send addresses and/or information. BUT there are quite a few still missing plus others on my list. Some I have only married names—**Donna Shearer** Fontaine. **Rose Orts-Gonzales** Scudder for instance. I have a few missing to add to the list. Do you know who and/or where the following are (or leads we can check out)? — **Ann Dennis, Agnes Jett, Olga Lavore, Emma Rosa Levy, Phyllis Libermann, Ann Middleton, Virginia Richardson** Middleton, did you find any trace of **Natasha Kadick**'s parents? We need a street address for **Gerry Shepherd** Copeland other than Boco Ratan, Fla. We found **Betty Rogers** Zvlewitz in the California Chapter, but still no address.

I'm happy to say we have "found" **Peggy Draper** Eckenrode, **Judy Preminger** Rappeport and **Virginia Johnson** Moeller recently.

PLEASE send a post card or 3x5 card, as **Myrna Russel** Ten Eyck did, with 2 or 3 lines of information. Myran writes that Tom is director of natural resources for the State of Colorado and daughter Doyen has transferred to the U. of Colorado as a junior. The family is currently hosting a Rhodesian girl who is a Rotary Exchange student. That's just great! We need to know about YOU!

P.S. Peggy is in Boykins, Va.; Judy Perth Amboy, N.J.; Virginia, Hyattsville, Md. Look them up.

'44 Elizabeth Cox Lean
High Street, Rt. 2, Box 70
Higganum, Connecticut 06441

News from **Rosemary Fairbank** Bell of Woodland Hills, California where she, her attorney husband, Arthur and their three sons live. She wrote that she retired a while ago from her "most interesting" work for the Department of Public Services in Los Angeles. Rosemary was unable to join us for our 25th Reunion, but will now set the 30th as her new goal.

A note from the Alumnae Office gave me news of Sister **Joan Margaret Feaster**, S.C. who is teaching religion and English at Bishop Reilly High School in N.Y. and really enjoys her association with the young people there.

Remember our 25th reunion April 16-18, 1971! Please plan to come and let me know ahead of time. Additional information will be sent to you in the mail.

Carolyn

'47 Jean Anne Bell
511 N. Broad Street
Suffolk 23434

The following note was received in the Alumnae Office:

Someone has written to tell me that I am a "missing person" as far as the MWC Alumnae Association is concerned. I am, therefore, writing to help you bring your files up-to-date.

I have been a missionary in South Africa since August, 1951, and so have lived outside of the states most of that time. I am, at present, drawing near the end of my third furlough. I have had a variety of teaching ministries in South Africa — first at a teacher training college, then in a high school and now in the women's division of a Bible Institute. I will be with my parents at the Richmond address until January 4, 1971. After that my address will be as follows:

c/o Union Bible Institute
P. O. Sweetwaters, Natal
Rep. of South Africa
Sincerely yours,
/s/ Christine Trevvett

'48 Kitty Clark Gibbons
801 N. Pitt Street
Alexandria 22314

I received a newsy note from **Vanina Giera** Schmidt. This is what she had to say about her travels.

"Spent a week in Geneva, Switzerland while Don's attending International Labor Conference. A beautiful country! Arrived here a few days ago for a holiday and much sight seeing—would love to stay a year. Off to London next and a visit with cousins. Nice way to celebrate our 20th anniversary. Read your plea in MWC News—so, decided to fill you in."

'49 Anne McCaskill Libis
Windsor Mill Road Ext.
RFD No. 5, Box 317
Baltimore, Md. 21207

'50 Dorothy Held Gawley
177 McCosh Road
Upper Montclair, N.J. 07043

Well, here I am with loads of news—still the material which was collected in June.

Shirley Kay Ostrofsky is a housewife living in Brooklyn, N.Y. She and husband, Irving, a lithographer, have three boys.

Attending the reunion from the N. Y. area were **Virginia Briant** Page of N.Y.C. and **Kay Venezie** Boffa. Kay is living in Cranford, N.J. and is doing work towards her Master's in School Psychology at Columbia. She has four boys ranging in age from 16 to 5. Husband, John, is a biochemist. **Janet Hoos** Sonntag drove down from Westfield, N.J. with her husband and children, Susan, 5, and George, 3.

A surprise visitor was **Betty Zipf** who flew from N.J. to D.C. and then rented a car to drive to F'burg. Unfortunately she could only be with us for the Saturday afternoon get together. Betty is now Supervisory Editor of the Editorial Dept. of Biological Abstracts in Philadelphia.

Jackie Newell Recker and husband Leonard drove down from Tenafly, N.J. to spend Saturday on the campus. Touring the area with Jackie were several of the Navy and Marine girls **Betty Turner** Jones and **Nancy Herring** Stuart who also brought their husbands along. Betty and Sam, a Navy Commander, are living in Alexandria, Va. with their three children. Their eldest son, Doug, was accepted at the School of Architecture at the Univ. of Arkansas — Sam's home state. Betty does substitute teaching in Fairfax County and also has started work on her Masters. Nancy is also substituting in the Alexandria elementary schools, living in the same city. She and Tom, a Lt. Colonel in the Marines, have a daughter, 16, and a son, 11. Tom was scheduled for his 2nd tour to Vietnam shortly after our renuion. And their roommate, **Nancy Lee Fox** Sease from Norfolk joined the crowd. Her husband, Hugh, is also a Navy Commander and they have a son, 15. A nice get-together for that group!

I mustn't forget the phone calls which I received. There was one from **Liz Garey** Parode from Tuscon, Ariz. She regretted not being able to attend the reunion, but one of her daughters was graduating from H.S. and then they were anticipating a trip to Mexico. And **Margie Cross** McClury called hoping she could still make reservations for the festivities. We are glad she could make it. Margie is living in Springfield, Virginia and is teaching.

We had several Saturday only Alumnae—**Leoora Ladd** Sloan from Silver Spring, Md., **Peggy Rudacille** Chapman of Chuckatuck, Va. and **Dudley Brett** Wiltshire, Richmond, Va. Unfortunately, I didn't get to speak with these girls at any length to find out about their recent activities. However, Dudley did mention hearing, on occasion, from **Elise Cleary** Rawson of Atlanta, Ga. **Mildred Charlton** Davis of Fork Union, Va. spent the day, accompanied by her 9 year old daughter, Mildred Leslie. Mildred is teaching and has her MEd in the Teaching of Mathematics. We were sorry to hear that Mildred's husband is deceased.

Another classmate to return for the occasion was **Virginia Hardy** Vance. She reminisced with the group and brought her husband along, too. They are living in College Park, Md. and Ginny is teaching.

Hear that **Patty Head** Ferguson's husband, Glenn, was appointed President of Clark Univ. in Worcester, Mass.

Our news is along these lines, too. In Sept. Irv. became the Dean of the new School of Math. and Science at Montclair State.

I'm wishing you all a Happy New Year and please make a resolution to keep me informed!

'52 Phoebe Wilson Sherwood
Rt. 1, 100 Sherwood Drive
Charlottesville 22901

Greetings to all. It's been so long since I've had anything to report and still "the pickings are mighty slim." I still live in hopes that some day some of you may take a minute from your busy days and let me her from you.

Susan Hutcheson Jurgens continues to keep me well posted. During an Eastern Shore vacation this summer she ran into Betsy Jacob Evans ('54). Maxine Haley Hazelgrove gave birth to a son in September 1969. They have two girls Our belated congratulations. In January 1970, Phyllis Webb Pegram and her family (5 children) suddenly lost their new home when it burned to the ground. Thank goodness no one was hurt. Getting re-settled after such a blow must be a terrible task.

Virginia Wallace Dodge from McLean telephoned one day this past summer. Ginney has two children, Elizabeth 7 and Steve 10. I believe Ginney's husband works for the Library of Congress and Ginney does part-time contract work in Russian translation under the Commerce Department. We talked about Sarina Genovese, Betty Jo Woodford Bates, and Nancy Wagner Peachee, but no definite news to report here except perhaps a lack of contact. We were reminiscing about senior year in Ball—2nd floor. Incidentally, Ginney, you forgot to gve me your address, which I did not realize at the time is incomplete. Speaking of the Washington area. I've compiled a list of those of you in that area and hope to be contacting all of you quite soon by phone, so get the news ready!

Change of address notices bore some interesting news. Newly located is Lucille Palladino in Horseheads, N.Y.; by this I mean we just found her, not that it was a recent move. Betsy Peterson is in Lawrenceville, Jacqueline Carter Frazier has moved from Baltimore to Knoxville. Tenn. Julia Starkey Wilkinson has moved from Riverside, Calif. to Deerfield. Ill. How about a letter from you Julia explaining such a big jump? We'd love hearing from you. After a nine year absence from our address files Gale Lambright has turned up in Austin, Texas. Dorothy Bible Tinsley is now in Huntsville, Ala. Melita Whitcomb Vonier has moved from Atlanta, Ga. to Hartland, Wisconsin. This bears some explanation too, Mel Mary ("M. E.") Bruce McCombie is now in Pittsburgh, Pa. Perhaps she and Jerry Ewell Mendez can get together as both are in the same area. Jerry visited us again this summer with her children while in town visiting her parents Two other re-locations, Nora Lee Hulme Watkins from Lake City, Fla. to New Bern, N.C. and Ruth Williams Webb from Rhode Island to Mountain Lakes, N.J I hope Ruth, that the place is as picturesque as it sounds. Bessie Bowman Munns has finally been located way out in Townville Bluff, Iowa. My way of obtaining this is most round about, so I hope it's correct.

Harriet Hodges Mohler's husband Dan has been promoted to an associate deanship here at the University Medical School. Their eldest daughter is a freshman at Westminister College in Pa. Janet Hellmann Meador's husband has left the University of Alabama where he was Dean of the Law School and returned to the UVa Law School where he has accepted the James Monroe Chair—Professorship of Law as of Sept. '70. Needless to say, I am one, of many, who is glad to have them back in Charlottesville Janet provided Joan Britten Lucas' address, another that's been long list in our files Joanie is at Travis Air Force Base in Calif. where her husband is a medical doctor. They were in Germany for 3 years, returning to this country 2 years ago. Janet and Dan visited them while they were in Germany Gale Lambright was on the faculty of the University of Alabama while Janet was there. She has since moved to Austin, Texas. Corleta Gibson Friesen and family have left the Washington, D.C. area and moved west, as Ernie had a new position More on the next issue when I can be more sure of information. Janet also had news of Jo Bidgood Dunbar in Crestwood, Missouri. Jo visited the Meadors in Alabama with her husband and 4 children. The Dunbars have purchased a farm, south of St. Louis, and while not living on it, are making plans to retire there Janet's last bit of news concerned Mildred Jones Bonner whom she saw some time ago in Memphis. Mildred is teaching. and has four children.

There was a great picture of Gene Woolfolk Dunn recently in our local paper. Gene was entertaining the Orange County Republican women's group.

That's all there is to offer you this time—all of you know how to increase this column In November 1 attended the first Alumnae Council Convention to be given at MWC You'll be hearing more about the results of this in the future. In the meantime, if you have any complaints, suggestions, or news, let me hear from you

It is my sad duty to inform everyone in the Class of '54 of the death of a classmate. Jeanne Rowell Callahan passed away on July 3, 1970 in Bristol after a lengthy illness. She leaves her husband Robert and four children. Jeanne was formerly married to the late W. Cameron Roberts, the brother of Helen Roberts McGonegal. Our sympathy goes to all of Jeanne's family. Thanks for your note, Helen. The Alumnae Office had already sent me the obituary from the Bristol paper.

Interesting news from Peggy Ann Sloan Conklin. In July she was married to E. A. Conklin of Plainfield, New Jersey. Her husband is employed at General Motors and also runs his own trucking firm. Peggy Ann has a 15 year old son. Thomas Arthur Darbie, now a sophomore in high school.

For the past five years, Peggy Ann has worked for the Courier-News in Plainfield and currently handles the family section which permits her to cover the American Designer Showings in New York twice a year. She has been active in Journalism organizations and has the distinction of being the first woman from her newspaper admitted to Sigma Delta Chi. formerly an all-male journalism society, when they lowered the bars to women.

Peggy Ann would like to hear from classmates but I do not have her current address in Plainfield, yet.

If anyone is seeking addresses of classmates for Christmas cards, drop me a postcard. I just might have them in my class file.

My file of missing classmates currently includes Sylvia Ann Barlow, Joan Baroo, Eleanor Dixon, Jane Bradfield, Imre Jo Broome, and Frances Corleto.

Until next time, please write.

Helen

Happy Holidays!

Let's continue on with the news of the gals who returned for our class reunion in June. Ann Strickler Dournas came all the way from Lake Jackson, Texas (60 miles south of Houston) with her husband and three children! Her husband is associated with the Dow Chemical Company there . . . and travels about for the company quite often. Ann taught for one year and has done some substitute teaching since her marriage. She is active in the Republican Party and is on the City Council Recreation Board. Ann included a 40 mile hike with her son during her trip East for the reunion and to visit with her parents in town. It certainly was nice to see her again and to hear all the interesting things that are accomplished by her active family

Gloria Styer Barnes arrived from Knoxville with lots of great pictures of her family, new home, lake house and some of her working activities—really a treat to see! Glo's home is a springtime paradise with her 30 dogwood trees, flowers and azaleas—she is enchanted with her older home compared to her former split-level home. Al completed their handsome lake house after three summers of working on its construction—the whole family loves it—plus the sailing, water skiing, etc. (Glo is still trying to master the art of fishing, though!) He has also formed his own architectural firm (Barnes & Moorefield), after having worked for TVA for several years, plus another architectural firm Glo has returned to work (part-time) . . . for the past two years, she has taught swimming classes for ladies and the City Dept of Recreation. During the school year she conducts exercise classes (3 days) at various city rec centers. Her most unusual one consists of half of her students being 60 yrs and over! She taught them recreational sports and found them all amazing and very youthful for their age—can you imagine a 71 and 68 year old learning volleyball? Glo says that their secret is that they kept physically active all their lives . . . just a little hint to pass on for what its worth! Many thanks for returning Glo . . . and your long letter! . it was great seeing you again, too!

And now to some other non-reunion news. Barbara Jones Black and Bob are now living in Bowie, Maryland . . . let's hear from you Barb! Ann Graves Hounshell and Barry have moved to a new home which is located in Chapel Hill, N.C.—drop us a note Ann—would love to hear from you—it's been a long time! Also would love to hear from Jean Peyton Brennan—she and her husband are now located on the East Coast—Newport, R.I. Ann Dunaway Criswell and Floyd have moved again!! They were in St. Louis, then they moved to Sunnyvale, Calif. and now their new home is San Jose, Calif.—all within a short period of time it seems, too! Are you teaching school this year, Ann? Joan Piedmont Gruppe is not really in our "lost files". She and Henry and three children have been living at a new address for about two years now. Their roomy and comfortable home is located at 6319 Haviland Dr., Bethesda, Md — for those who thought Joan was really lost! (Don't forget to write to her Bev!) Leah Block Malloy and Ray are now located in Germantown, Md.—let's hear from you Leah! Phyllis Thompson Frazier and Jim plus family have moved within Bluefield, W Va this past year—it's been too long not hearing from you Phyllis! Nancy L. Tompkins is living in Southampton, New York and Dorothea Harris has moved to a new address within Charlottesville. Most of this address information comes from info supplied by the Post Office—those who are listed as "unclaimed" are: Emma Jane Barnes and Marilyn Wicker Faulkner Please send us their addresses, if you know them.

That's about it for now . . have a good day and please send us news for the next column. WE are anxious to hear from you! Everyone of you are a part of our class and without YOU we couldn't have a column for you to read or enjoy A postcard will do if you are too busy to write a letter. Looking forward to your note!

As always,
Joan E.

Hi Girls:

Joan did a fantastic job of reporting the news from those of us who attended the reunion last June and it was up to me to relay news from gals who sent back info' sheets but were unable to return for reunion. I have been lazy, lazy, lazy but will try to make up for it now!

Marilyn Poole Kesterson, living in Ashville, N.C., is busy directing a vacation Bible school and teaching an adult Sunday School class and is to attend Western Carolina College to study Library Science in the fall. Mary Alice Pattie McDonald and Henry have been doing a great deal of traveling—to England and Scotland two summers ago, the far west last summer and a tour of Italy and Switzerland without young Stan and Pattie, this past spring! The McDonald's are living in Murray Hill, N.J., and entertained scads of relatives and friends who came to "Fun City" this summer. Bev Carmichael Ryan sends regards from Birmingham, Mich. She spends all of her time with Joe and their six children ranging in age from 14 to 2 years old. Ann "Miss" Hungerford McKinlay living in a new home in Port Chester, N.Y., had planned to be at the reunion but had to cancel at the last minute because of dental surgery. Millie Haney Sandridge, in Charlottesville, was married to H. K. in March, 1957, and has an 11 year old daughter Tracey. Millie has been a secretary with the Trust Dept. Bank for $9\frac{1}{2}$ years. Last year she and her husband took a trip to Bermuda She sent word of Barbara McLaughlin Mason who was with our class for freshman year. Barbara has two children and lives in Cortez, Colorado.

Jane Dallas Wood had a last minute problem and cancelled her reunion date. Her children are Wiley II, a Navy Ensign; Ted, a senior at the U. of N.C.; Betsy, a high school senior and Dallas, a fourth grader. Sara Parcells Vignali, Charlie and their four children send regards from Summit, N.J. The Vignali's are busy reconditioning their new-old home on $2\frac{1}{2}$ acres with greenhouse! Charlie has taken a promising new job as sales manager with the Summit Filter Co. division of the John Boyle Co. in N.Y.C. Sara is busy as Sunday School teacher, room mother, Indian Guide helper, and nursery school teacher. Joan Membert Shropshire is way out in Madison, Wis., with Richard, who has a busy family practice in a medical clinic for the past 13 years and their three children. Three years ago they traveled around the world spending a month in India studying church missions. They've since given 200 speeches around the country on the mission work in India Last spring they toured Japan and Expo '70. Joan is continuing her work on her Masters in Speech Correction. Kent Miller Stow, after five years of moving (London, Houston, Pittsburgh) has permanently settled in Houston, Tex., with Fred and their three children and would love to see any classmates who come down that way.

Nancy Bach Engelberg '63 and her doctor husband are in Rochester, Minn. She has two daughters and is president of the Mayo Clinic Fellows Wives Club where her husband will complete his residency in neurosurgery in Oct. '71. Jacklyn Woodall Jones is busy building her "dream house" in Salisbury, Md., where Bill has a thriving real estate business. Her two boys, substitute teaching, and bridge keep her very busy. Coralyn White McGeehan, Annandale, and Bob have been doing a little more traveling—two lovely trips to Europe and another to the Paris Air Show! Coralyn is a hostess at the Custis-Lee Mansion as her volunteer work with the Service League of Northern Virginia Captain Bob is piloting 737's for the "Friendly Skies" people! Their two daughters are very enthusiastic about the McGeehan's new boat. Laura Milster Orville. Harry and their four children are making a big splash in Rapid City, South Dakota! All of the children are on a swim team that's competing in S.D. as well as several neighboring states. Harry is an assoc. professor and research meteorologist. Laura has taken a course "Parent Effectiveness Training" to do with communication which has fascinated her. served as president of League of Women Voters, fished, read books and helped with a drop-in school for junior high drop-outs

"Bert" Lino Miller, is proudly settled in Charleston, S.C. and invites us all to help celebrate their 300th anniversary. Bert traveled with Tom to Penn State, Bellafonte, Pa., Wheeling, West Va., and Ohio where she taught for a year Once settled in Charleston Bert taught for a while but is now retired Tom is Regional Employee Relations Manager for Mobil Chemical Co. and travels constantly She has a daughter $2\frac{1}{2}$ and is expecting momentarily! Send us an announcement, please!

So many of the girls in response to the thought question on the "informationaire" wrote of the hope and prayer for human understanding amongst nations and individuals of peace and brotherhood. I feel it shows that even though we are approaching the "life begins at" stage we do care and are doing what we can to make the world a better place. We must keep up the good work!

There's more to come—next time!

'56

Bermie Gross Fox
6654 Park Ridge Blvd.
San Diego, Calif. 92120

Esther Stevenson Vaughan transferred after two years at MWC to the Medical College of Virginia in Richmond and graduated in medical technology. She worked two years at a physician's office in Cape Charles; then at St. Luke's Hospital in Richmond for four years; and finally at A. H. Robins Pharmaceutical Company for two years in clinical research. In 1962, she married George, a dentist, and they settled in the Roanoke Valley. He practiced two years in Roanoke, then moved to Salem where they have now been for six years. They have three children: Stephanie 6; Susan 5; and Rob 2. Esther is active in the Roanoke Valley MWC Alumnae; church work, dental auxiliary; and school activities. She is in touch with Mary Mordecai Early and Sam in Raleigh, N.C. with their daughter 1; also Ann Ninde Peterson and Karl in Torrance, California with their four children; and Nanalou West Sauder and Bill in Lexington, Virginia.

Pat Barnes Kellam and Pete moved to Camp Hill, Pennsylvania from Georgia last summer. Pete has been named regional manager of the Asgrove Seed Company (a division of Upjohn) for the northern United States with offices in Mechanicsburg. He was manager for the southeast while in Georgia. They have also lived in Goshen, New York, and while there Pat was a case worker for the Orange County Welfare Department. Their daughter, Kern 12, entered seventh grade this year The Kellams were active with the Episcopal church, its thrift shop, and PTA while in Georgia They enjoyed the ocean, golf, and bridge.

Mary Landon Noland Adams and Air Force Major husband Dick, have been in

California almost a year now with their three children. Dick has been stationed at Travis AFB since his return from Vietnam. The family enoys touring in their camper. Mary Landon is teaching again this year, her fifth. She mentioned that Susie Ayers Warters recently moved to Mare Island Naval Shipyard in Vallejo, California where her husband is stationed.

A postcard arrived this past summer from **Cathy Pizzuti** Petraiuolo during the family's cross-country "See America First" trip. They came as far West as California during their six-week sightseeing tour, but unfortunately for us didn't make it as far south as San Diego. Their children are Edward III 12; William 10; John 7; and Cathy 3. She had the great experience of running for Registrar of Vital Statistics in New Haven, Connecticut last winter.

Beverly Lawrence lives in Summit, N.J., but works as a reading specialist in South Plainfield. Last summer she attended summer school at Newark State College in Union. She managed during the summer to also travel to Quebec, Montreal, and Lake George.

Elaine Peru Palahunik is teaching senior high school in her hometown of McKees Rocks, Pennsylvania.

Carol Pope Howerton has been teaching sixth grade in Fairfax County for the five years they have lived in Alexandria. "Cig" is the Resident Agent (naval intelligence) at Quantico. Their two boys are Cal III 11; and John Pope 8. Cig is active in Little League and Carol with the Junior Women's Club, church choir, as well as taking interest classes. **Susie Ayers** Warters (again) was her neighbor before moving to California. Carol sees **Ann Johnson** Hill in Hopewell occasionally. Ann is teaching elementary school. Horace is in social work at the Federal Reform in Petersburg. Carol's former roomie, Jean Smith, is with the Welfare Department in Chesterfield County and lives in Richmond. Thanks for all the news, Carol.

Helen LeRoux Marston is in Middlebury, Vermont with veterinarian husband Alan, and two children: Colin 10, and Alan 6. Helen received her A.B. from BU after having gone to Mexico City College for a summer session. She taught high school and was very active with the Experiment in International Living. She has since taught at Middlebury and Castleton State College after obtaining her M.A. in Spanish at Middlebury. She also has a Master's in TESOL (teaching English as a second language) from St. Michael's. She is now teaching Spanish at Trinity College in Burlington, Vermont. She also recently formed a children's concert group. The whole family are avid skiers, and they love it.

Lou Ann Ashby Steffey and the children Pamela 12, Beverly 9, Ricky 7, and Brian 5, are all anxiously awaiting Jerry's return from Okinawa in December to home in Cape Charles. Then he will attend Armed Forces Staff College in Norfolk. Daughter Beverly has had MWC grads as her teachers for the last two school years. Pamela is an accomplished musician.

Julia Smith Cooke and Bob in Pasadena, California along with their boy and girl joined forces with **June Tingler** Buie and Marion of Newport Beach, California plus their three boys (12, 10, and 8) for a trip to Ensenada, Mexico last spring. Since then the Cookes have visited the Buies at the latters home for a beach weekend blast. June is a psychologist for the Newport School District. Marion is with Coldwell Banker Realty Corporation in Newport.

Patsy Hubbard Johnson lives in Vienna. She's been teaching first grade in Fairfax County four years. She is now working on her Master's. Bobby 12, is in seventh grade at a preparatory school, and Lynn 10, is in fifth grade at the same school where her Mother teaches, and she is quite an equistrienne.

"Boo" Rountree Duke and John adopted their second daughter in July when she was three days old. Sharon 2, is a delightful "little mother" to her. Boo is still teaching at Churchland High School. She sees **Dean Murphy** Gilmore often. Dean was expecting their third child in November. Boo also sees **Betty Winstead** Stiff of Richmond often. Her children are Karen 15, Tim 12, and Chuck 8.

Beverlee Marion Schoeckert and Bob have bought a new house in Virginia Beach. She sees **Barbara Momm** Karcher and her children frequently.

Meg White Fary and Frank along with their three school-age children are still in Greensboro, North Carolina. Meg is doing graduate work in French at the University of North Carolina.

Ellen Pitts Camden and Sidney live in Eastville with their four year old son. Ellen is teaching art at Northampton Senior High School in Eastville.

A long note came from **Anne Lou Ford** Humphries of Charlotte, North Carolina. All's well with her, David, an orthopedic surgeon, and their three children: Sally 12, David, Jr. 10, and Stuart 2. She sees **Ellen Wheby** Witherspoon and **Nancy Johnson** Edwards, both of Charlotte, from time to time. She is also in touch with **Ann Ashbury** Lebhertz in Frederick, Maryland, **Angie Walton** Bruner in Petersburg; **Ann Urquhart** Litvak in New Shrewsbury, New Jersey; **Susie Ayers** Warters (again) in California; and **Jeanette Carrill** Rothrock in Fairfax. A very nice note arrived from **Elaine Schmitz** Wingate. She and Prince very much like living in Bel-Air, Md. as do their two children Cyndy 11; and Doug 5. Prince is Economic and Business Analysis "Section Head" for Humble Oil Company with offices in Towson. Elaine lectures for Weight Watchers three nights a week and loves it. She is considering, however, to returning to teaching the retarded next year.

Talked with **Barbara Garland** Frazier not long ago. She and Don bought an old Spanish house in Coronado, Calif. about a year ago and have been putting much time into fixing it up. "Chicken" visited friends and relatives in her hometown of Norfolk for a few months last summer. Commander Don is now assigned to the carrier John F. Kennedy which is now in the Mediterranean. Their children are Holly 10, and Scott 6. She spoke with **Jo Heath** Sheehan on the phone while in Norfolk. Jo works for National Air Lines as Barbara once did. Also **Shirley Reese** Sanders and Hank are in Darien, Connecticut with their two children.

Another Coronado gal I called recently was **Susie Heap** Trent who is teaching 6th grade in nearby Chula Vista, California. Last summer she taught art in summer school in Coronado. Her two girls are Katharine 10, and Cecily 8. A last minute call to **Carolyn Miser** Reinecke's sister brought forth the following information: Carolyn and Rod live in Burlington, N.C. with their four boys (13, 11, 9, and 7). Rod is rector of the Episcopal church there. We'd love to hear from you, Carolyn.

Ann "Stokey" Saunders Addison wrote a long letter. She and Bud along with their three children Kathy 14, Duke 11, and Tommy 4 are permanently residing in Virginia Beach. Bud resigned from the Air Force in 1969 and is now engineer salesman for the Tate Engineering Company for the Tidewater area and parts of North Carolina. Stokey enjoys seeing old friends who come to the resort area from time to time including: **Martha Anne Eagle** France, her frosh roommate, and her family; **Betty Bramble** White, her cousin; **Turner Christian** Richardson; and **Allene Atkinson** Hull.

After a nine year absence from our news column, we find that **Betty Anne Mihm** English is back in Baltimore with her two children Lynn 11, and Randy 6, while Air Force Colonel husband Bill is with the Seventh Air Force Headquarters in Saigon. Betty Anne joined him for R & R in Kauai, Hawaii last month. Upon his return Bill will go to Wright-Patterson Field, Ohio to work with the new F-15. BA transferred to U.N.C. at Chapel Hill her junior year, and graduated from there with a B.A. in English. Bill graduated in 1949 from U.N.C. State with an engineering degree. He also has his Master's from U.S.A.F. Institute at Wright-Patterson. They have lived in Palos Verdes, Calif. for 3 years while Bill was at BMD in Inglewood; then 3 years in Montgomery, Alabama; Fairfax, Virginia for 3 years while Bill was at the Pentagon, 3 years in Germany while Bill was Commander of Stuttgart Air Field; and now in Baltimore. They loved Germany, as well as Spain, Italy, France, England, Belgium, Switzerland, and The Netherlands. In fact, they all still miss it. Betty Anne is busy with school and church activities. Great to hear from you BA; welcome back.

Another classmate whom we have located after a sixteen year absence is **Sally Niedermayer** Hopkins! Sally left us junior year to attend the Medical College of Virginia in Richmond from which she graduated in 1956 with a B.S. in Medical Tehcnology. She married Bob in 1957 after he had graduated in 1956 from VMI with a B.S. in Civil Engineering. They had a short Army tour of duty after which they moved to Seaford, Delaware; then to Sally's hometown of Richmond for seven years, and now in Martinsville, where they have been for a year along with their two children: Susan Lynn 6, and Billy 3. Bob is the Senior Results Engineer in the Power House for E.I. DuPont de Nemours and Co. Sally teaches Sunday school, is a garden club member, enjoys gourmet cooking, sews, and plays bridge. Thoroughly enjoyed your "recap" letter, Sally. Thanks so much for answering. It would be nice if more classmates answered my letters so promptly and thoroughly. Here are the results of the election for new class agents: **Barbara Clark** Fowler (Mrs. Merle): 8927 Parma St., Riverside, Calif. 92503; **Nancy Hanna** Stone (Mrs. Lowell Perry), 10060-1000th Ave. East, Oak Harbor, Washington 98277; **Lee Blank** Richmond (Mrs.. Alvin), 8907 Greylock Road, Baltimore, Maryland 21208; **Charlene Parrotta** Dahl (Mrs. Norman F.), 740 Tuckahoe Road, Yonkers, N.Y. 10710. Congratulations, Gals! And many thanks to the class for such a terrific response of voting Remember, these four girls will be your new agents from 1970-1975. Give them your support and your news. You'll be hearing from them next issue if not before. Good luck Barbara, Nancy, Lee, and Charlene.

And now, for that final paragraph. I had thought that at the close of fifteen years as one of your agents, that I would be eagerly looking forward to writing my last column and saying my final official goodbye. But, now, I find the exact opposite true. I'm going to miss writing this column; talking with you via it; writing many of you individually as well as through the Alumnae Office; hearing from many of you personally throughout the years; and, most important, of just trying to keep up with each of you as you have developed and lived your lives away from Mary Washington, but always as a part of Her as we lived our lives together on the campus so many long years ago. It's been a great job. I've enjoyed it. Thank you for electing me, Class of 1956. It's been my pleasure being one of your agents. Take care of your new ones, and continue to give them the support you've always given me. It's a long way, but I sure hope I'll be able to see each of you at our 15th reunion in April. Till then.

Hermie

Nancy Hallett Guest
2 June Drive
Loudonville, N.Y 12211

Birth announcements are supposedly to be reported in the Alumnae magazine, but this is all I have to report. I do wish you-all would take the time to write me your whereabouts and happenings so we would at least have a column.

Marlene Bost Braun and Carl are the proud parents of a boy born this October and she added that their second child was adopted so this arrival was quite a surprise.

Ann Dickman Kessler is currently President of the Norfolk Alumnae Chapter. She had her fourth child in September and this makes 2 boys and 2 girls.

I cannot add another thing. The Guest's aren't doing too much either. With teaching full time and a boy reaching the teen age stage, we are kept busy! Please write!!

I have some news about **Nancy Kleinknecht** Smith. I talked with Nancy's sister, Joan, during Alumnae Week-end last June. Nancy is living in Fairfield, Conn. She and Richard have two sons, Jeff 10 and Todd 8. Gardening occupies some of her time, but this summer it was Little League. Richard is quite active in football league for youngsters. Nancy sees **Libby Foster** Beardsell often. Libby and family live in Chesire, Conn.

A note from **Meredith Busby** Frank. She has been working full time for the past two years. Jim was earning his MBA at Wharton Graduate School in Philadelphia. They have just moved to Lisle, Ill. Jim is Assistant to the President of the American Mutual Insurance Alliance in Chicago. Their daughter Helen started first grade this fall. Thanks for writing, Meredith!

Beth McCarthey Crowley sent oodles of green stamps. She writes there are no redemption stores in Washington state. Now that winter is coming her family is involved in ice hockey and football. With boys ages 11 and 8 there is always something. Her daughter is 6 now. Beth extends an invitation to visit to anyone in the area of Bellevue, Wash.

Our missing persons list still goes on. Please send me a postal card if you know any addresses. Mrs. Betty Galliher Jordan, Mrs. Nancy Jane Richardson Lakey, Miss Myrna Elaine Levin, Mrs. Christine Parrish Lucas, Miss Nancy Gladys Lunsford, Joyce Pugh McCoy, Mrs. Elizabeth Kite Maddox, Miss Sally Rossister Middough, Mrs. Anne Bouchelle Snook Miller, Miss Nancy Kent Miller, Miss Grace Ann Mooroe, Dennis C. Moriarity, Mrs. Madeleine Smith Moss, Cynthia B. Niesley Potts, Mrs. Alice Pollard Payne, Mrs Althea Ash Prins, Miss Nancy Payne Richardson, Miss Elva Lucille Roeber.

Mobile, Ala. 36609

Well, Girls, a little more news this time! **Emily Babb** Carpenter and family are in Fairfax, after their sojourn in Kansas. Note from **"Gay" Gaylord** Allen. She and her husband are both still teaching, but the great news they're both shouting is, they're in the homestretch of adopting two children in the near future. Hurrah! **Barbara Bache** Barker wrote of how much she and her family like C'ville, though it has changed in the past ten years. Barbara is working on her Master's degree in Elementary Counseling which she plans to receive this June.

Received some information from **Elaine Ceccarelli** Behling. George was running for the position of trustee on the village council in Ossining, N.Y. during the November election. So we know they have spent a lot of recent time on the campaign road! **Jane Moren** Wunderlich and family are now residing in Quantico.

Nice letter from **Jane Tucker** Broadbooks. John, in addition to his landscape work, is now teaching a class in "Facilities in Site Planning" once a week. Their schedule is hectic, says Jane, but they did manage a few days in Toronto, which they really loved. Jane has spoken with **Jo Neal Hendricks** Scully and is happy to report that Jo Neal was expecting her second in October. She and Dick have bought a home in Arlington. Jo Neal bumps into **Martha Huffman** Wood frequently and says she's fine. Jane is wearing herself out working on the church bazaar as chairman.

Mary Carolyn Jamison Gwinn belongs to both the Junior Women's Club and the Bridge Club in her community. In between those, she has a new hobby of creweling and really enjoys it!

Can't help but mention it! Our last two issues have been a little on the weak side so just drop a postcard if you can. Guess I'll give you the latest down Mobile way. Decided to take a leave of absence from teaching for this year. Crazy feeling! Drove around the first two weeks of school staring, smiling and patting little children on the head. But now I'm pretty well adjusted to that second cup of coffee. Have jazzed up the old schedule so I wouldn't get too used to it. Next Spetember will be here before you know it. Joined the neighborhood garden club, took a slimnastics class (Watch it!) and in November began some postgraduate work at the University of Southern Mississippi. Would you believe old "Eddie" can ski on slalom now! Next step—"O.K. Tom, I'll take over the plane controls"—ho, ho. Goodness—got carried away—you know how to prevent that—a little more news, girls!

Love, "Eddie"

It hardly seems possible, but in a fe short months, it will be time for ou TENTH year reunion. Let's all try attend.

There isn't much news this time. Marc **Minton** Keech sent a short note. Aft spending what she calls "nine short months in Hawaii, she is now living in Kans City, Kansas, while Bill is attending t Command and General Staff College Ft. Leavenworth. They will be there ni months. She and Bill now have 2 girls a 1 boy. **Lorraine Barrett** Hall and David a in Alabama where he is a Professor Polymer Chemistry at Auburn Universit They have 3 children. I am planning to spe Thanksgiving week with **Betsy Huest** Hansen and Carl in Salinas, Calif. Th have fallen in love with Calif., and a thoroughly enjoying their own new hom They have found that they know seve people on that coast, and are not looki forward to ever having to move. Carl is very proud father of a son born in M

I had to sneak that one in before the usual time for birth announcements. Are there other MWCer's around Salinas? Anne Bostick Lindsay and Donald are now living in Lancaster, S.C. Donald is head coach and athletic director at Buford High School. They have two daughters. My apologies to Nell Robinson Jones for not getting the news to the Alumnae Association. I really did appreciate the letter and promise to do better the next time. Hope to see all of you at the reunion.

Mary

I'm writing this column between feedings of our newborn son who arrived on October 14, 1970! He is named Michael Leonidas Logothetis, the middle name coming from his Greek grandfather whose birthday is the same day. It is the first Logothetis grandson after three granddaughters (Andy's brother has two girls) and needless to say, they are delighted. Our two and a half year old Elaine still has mixed feelings about her new brother, but we're sure she will grow to love him as much as we do. Michael is the opposite in coloring from Elaine — she is a blue-eyed blonde and he has lots of dark brown hair and his eyes look as though they will be brown. Other exciting events in our family this summer and fall were a month-long visit with my sister Linkey Wilhelm ('63) and her two children who came East for our younger brother Bobby's wedding Sept. 5 to his Duke U. "college sweetheart", Pat Conner, a nurse from Glen Rock, N.J. I had a brief but very pleasant visit with Clara Sue Durden Ashley in September at her home in McLean, Va. Her three boys are just darling — two red-heads and a blonde. We heard a line from Jane Toye Laurson that she and Ivo were to move to Buenos Aires on Sept. 15. Hope you'll fill us in on all the details, Jane!

The only other news I have for this issue is a letter from Ann Hopkins Burroughs who sounds as full of life as ever. I'll quote most of it as I'm sure you'd enjoy it. "We've recently moved back to the San Francisco area (San Rafael). Dick was promoted to Western Regional Sales Manager with MAI and travels the entire west from here to the Mississippi . . . However, when he's home his office is only 15 min. away. We built a new home that is redwood and glass and very Northern California looking! We love it and living here where we see stars, small fresh air and chase deer away from our newly planted yard! A far cry from Southern California beach living!

Darcy is 6½ and in first grade and Donny 4½ and in a co-op nursery school which means I teach one day a week. The school meets in an old school on the San Quentin grounds . . . makes for interesting conversation when we pass San Quentin on the freeway and Donny announces, 'That's my nursery school!' Believe it or not, it's a lovely school! I still try to paint occasionally but with nursery school, political activities, new house, and my addiction to tennis I've hardly had a chance to use my new 'studio'.

Have seen Prudie Shepherd, Barbara Steen Paulman, and Linda Lange Senf since moving north. Prudie is working in San Francisco. Barbie just recently had a baby girl, Julia. She and Roger have a darling home in San F. Linda and Tom live in San Rafael too—and we've gotten together several times. They have two darling red headed boys—natch! They are moving back to the L.A. area soon however and we are most sorry to see them go. If you ever get this way be sure to call—I still talk too much!" Glad you do, Ann, thanks so much for all your news. I'd love to see your new home and play some tennis — I'm so addicted that I played through my eighth month of pregnancy! (Ann's address, 130 Dominican Drive, San Rafael, Calif. 94901)

My son is crying—'bye for now!

Connie

Have been saving up for sometime in order to have plenty of news and now I'm really loaded. Thanks so much to all of you who have written, especially those from whom we haven't heard anything in YEARS. Let's hear more from some of you "drop-outs".

A nice letter from Barbara Steen Paulman full of news about her family and others. Barbara and Roger were married Nov. 30, 1968, and are now living in San Francisco, and have a little girl Julia born Aug. 28, 1970. Barbara is enjoying "playing mother" and keeping up with "Tuffy" their poodle and their house. Probably finds homelife peaceful after being a portfolio manager of over 200 trust portfolios and a securities analyst in insurance stocks for a mutual fund.

She sends news of Ann Hopkins Burroughs and family who are now living in San Raphael. Ann is having a great time decorating her new home. Her two children are growing up and are ADORABLE.

Barb had a built in babysitter for their house a year ago when Prudie Shepard took care of it while they were in Europe for 6 months. Prudie is working for A. G. Becker & Co. brokerage house. She spends all free time on the ski slopes in winter. Barb and Roger and Julie will probably be moving back to Illinois in mid '71 — Roger's from Winnetka — Thanks Barb for all the news.

One great advantage of being a class agent is receiving such warm letters from old friends. Kay Nock Wolk sends lots of news. She and Charley are back at Quantico. They have three children, Ben who is 9, Jack 6, and Kathy 4, plus a dog, cat, hamster, and bird! Kay, that's a long way from our camp days! Quite a few classmates are there too. Bunny Rogello Samuels lives right up the street from Kay. They recently had a baby daughter and Bunny was absolutely elated. Theresa Horsman Ammon ('60) is there too. They have a daughter Paige 6 years old. These girls three husbands teach at the Amphibious Wayfare School and therefore they meet quite a few foreign students who have civilian sponsors. Often the sponsors are MWC faculty and they all keep in touch a bit through this association and social functions.

Nancy Perrine Reno sent me a note from Theo Sammis Bee—This takes me way back to a funny freshman year—now it's funny! Nancy and husband Gordon live and work at Breckenridge Ski Area in Breckenridge, Colorado. Sounds very exciting, Nancy. Would Nancy recognize any of us ski buffs in our gear? For those of you who feel there are not enough hours in the day, think of Theo with her new set of twins, Molly and Mandy born April 3, and the rest of the Bee's — Ellen, 7½, Sarah 6½, and Austin 3½. Theo says they are all great helps, including husband, Fred, a very successful lawyer in his own practice who is also holding down such jobs as President of the Marathon, Florida Jay-Cees and other board memberships. Wow!! Thanks for the news Nancy and Theo.

Becky Turner Perdue and Wayne have moved to Roanoke. Wayne is going back to school at VPI and Becky will be heading up the chemistry department at a new hospital in Roanoke. They plan on being there a year only since VPI has no Ph.D. program in history for Wayne. They will then possibly go to Emory in Atlanta Congrats-Becky. Becky served as vice-president of the Richmond Alumnae Assoc. last year and is just as thrilled as I am with all the new changes at the Alma Mater!

A good while back, I attended a meeting with Patsy Whitehead Crane and she filled me in on a few of our classmates and their expanding families. Lynn Wilson Rupert, husband and two daughters are living in California. Jane Rader (Elliott) (I've forgotten her married name and I'm the one who introduced her to Wright!) and three sons live in Broxville, N.Y. where she is quite active in the Junior League. Judy Glover Brell and Peter live in Cherry Hill, N.J. with their two children. Sylvia Barden Heiner and Phil and daughter live in Atlanta. Dee Doran Cairns and family are now in New Mexico. Patsy, who promised to send me more specific information, and never did, is very busy with her new daughter.

Speaking of new children — Congratulations to Mary Ann and Ham Hannah on the adoption of their second child, a son, Jeffrey Matthew, July 27.

One rather delayed note was received from Judy Early Toxie. The note was written on New Year's Day and this prompted not only the news from a long unheard classmate, but also thoughts of our up and coming Homecoming in April. Judy was married to Paul in 1961 and they went to the West Coast where Paul taught school and she did graduate work in education at San Diego State. From there to Washington, D.C. area where Judy taught and went to graduate school at G. W. University. After three years of teaching and a summer in Europe — Mary-Julia Elizabeth was born. Two years later, in 1967 Paul David was the newest Toxie. Judy received her Master's in English Lit and Education in 1968. Paul is with the American Chemical Society as a Systems Analyst. At present, Judy is doing graduate work at the Univ. of Maryland in American and English Lit. — and the rest of the time is spend as a winter swimming coach, housewife, and mother. Judy, I don't know where you found the time to write but thank you.

I'm constantly amazed by the scope of everyone's activities. Somehow my days with my two sons, the new puppy, the new house, the new lawn, the new weed, etc., hardly leave time for lots of exciting pursuits. We are really enjoying taking art lessons together — the only problem is which picture to hang since they are of the same subject! All else is really fine here; believe it or not, our businesses are thriving in this economic slump — just keep on buying that Polyester girls!!

May I take this space, not to editorialize, but for once to offer warm congratulations and best wishes to one of my favorites, the former Dr. Croushore, now known by all as Dean Croushore . . . The College is indeed fortunate to have such a fine man as Dean. AND TO MWC — Congratulations, on the recognition accorded FINALLY by Phi Beta Kappa.

Thanks again to all of you for the news which makes this column. Happy Holidays — PEACE.

Dear Classmates:

This time I have received so many nice and exciting letters from classmates. Can't wait to share the news and information from friends we have been separated from for eight years now. It just doesn't seem possible, well here goes

Last July a letter postmarked Agana, Guam arrived in my mail box. My curiosity was definitely aroused and I quickly opened the letter and found the nicest note from Valiery Hartsell. She started off, "Imagine me out on a Pacific Isle, coconut palms, sea breezes, warm sun all year long. This is Guam. It is truly a beautiful island, however, not exactly as one thinks Tropical. It is basically a volcanic uplift—which means it has hills and cliffs.

Being a librarian in one of the elementary schools here is quite an experience. We have armed forces dependents, Guamanians, Filippinos, a few Chinese, Japanese, and Koreans in our schools. There are close to thirty elementary schools on the island, so you can see we have many children to care for and educate.

I have been here for three years and probably one more—then somewhere else. While here I have traveled throughout the Orient and parts of Asia, Greece, Italy, Spain and Portugal." Val was planning to make a second trip to Japan to see Expo during last summer; then the last of July had enrolled at the University of Hawaii for an Institute called "Pacific Culture and Oral Nomation". The Doctor in charge is a graduate of MWC '27. Dr. Rachel de Angelo. Val, your life sounds busy, exciting and challenging on the "other side of the world." Many thanks for such an interesting letter and the news you sent of classmates which follows:

Marjorie Samuel Becus and husband George are living in Buffalo, N.Y. They have two adorable children Patrick age 2 and Lucie Chantal, born early in 1970. George is working on his doctorate at the University of Buffalo. He is on an assistantship and plans to teach some time in the fall. His field, Val says, is physics.

Mary Chambers Hodnett Minozzi wrote a long newsy letter telling of the birth of their first child, a daughter Mary Glenn born November 1969 and describing the visit to Homecoming at MWC last June. Her letter was so interesting and informative —thought I would have it printed for you. "Butch and I went to MWC Homecoming. We had a fabulous time. Saw quite a few familiar faces and talked with Rose Bennett Gilbert '60 who does such good work as contributing editor for 1,001 Decorating Ideas. For those of us who lived in Willard our freshman year, Rose was our house president. Old movies were shown at Monroe and older representatives of classes were presented. The Alumnae traveling the farthest was from Turkey. Quite a few from the class of 1915 were there and amazingly spry. I might add, however, they did not make the cocktail party. Delicious fruit punch and champagne punch were served, and a 'Charlie Byrd atmosphere' prevailed with a very talented guitarist. After the buffet dinner, people and groups went their various ways. Sunday was beautiful, and after Commencement and bidding farewell to those we had met in Virginia, we left and visited Mrs. Ruby Harris, a beloved Home Ec. teacher of so many of us. They are making an addition to their home, adding a much glassed in kitchen and sitting room.

I must add that Carley's clothes are as beautiful as ever; also many of the girls would be surprised at the urbanization that has taken place on Route 1."

Mary Chambers, so many of us couldn't make the 8th reunion, I appreciate your descriptions of Homecoming. Also, while at home taking care of Mary Glenn, Mary Chambers has become involved with handmade specialty gifts, which she says is a wonderful creative outlet and affords much pleasure. While we are speaking of reunions, our tenth is next year. Hope many of us will try to attend—should be grand fun.

Wanda Campodonico Smith wrote from her home in Colonial Heights, Va. After graduation, Wanda married Walter, who is the purchasing agent for Masonite Corp. in Waverly, Va. and went to work for Allied Chemicals Nitrogen Division. She worked there three years and transferred to Allied Chemical Corp. Fibers Division until March, 1970, when she 'retired' to become a housewife. In February 1969 Walter and Wanda adopted a little boy—They brought Darren Christopher home when he was only eleven days old.—The Smiths built a new tri-level home in Colonial Heights, Va which they moved into during May 1969. When Darren was six months old, Wanda became pregnant and in April 1970 their daughter Wendy Lynn was born. Wanda remarked that Darren and Wendy weighed the exact amount at birth and Darren was only one-half inch longer than his sister. Wendy looks like her Daddy and Darren has blonde hair and blue eyes. Wanda, your children sound adorable. Congratulations on such a nice family.

Wanda said she keeps in touch with Margaret Dean, who has gotten her Master's in Music. She has been teaching school in Campbell County, near Lynchburg, but plans to teach near Baltimore this fall. Wanda talked to Loretta Awad Gray who lives in Richmond and has two sons Wanda, many thanks for writing

Heard from Myrtle Lee Dean France, (who incidently is on the Alumnae Board of Directors, representing classes 1960-65 inclusive). She has a new baby, Mary Scott, born July 1970. Her older girl Rebecca is now five. Myrtle Lee has been working at the Naval Weapons Laboratory at Dahlgren, Va. as a mathematician since graduation. She plans to return as soon as Mary Scott is three months old. Myrtle Lee says she sees Georgianne Maloy Hull quite often. Their husbands do quite a bit of hunting together. "Porge" is expecting her first child the end of February.

Lillian Ann Dix Smith and her husband Curtis live near the Frances' at Warsaw, Va. They stopped to visit Myrtle Lee and Billy this spring, along with Vanelia Oakley Gallagher and her husband David, and young son. Lorraine Huffman Firestone has stopped teaching and enjoys being at home with their daughter, Lynn. Georgene Branch Burton also works at Dahlgren. She has three children—two girls and one boy; her husband Gene is a Programmer. Myrtle Lee, thank you for writing and good luck working on the Board of Directors, I know you will enjoy it.

Received more addresses from the Alumnae Association—thought you might like to see them. Mrs. Elizabeth Browder Wilson, Hartsville, S.C.; Mrs. Eleanor Booth Thurber, Huntsville, Ala.; Mrs. Patricia Rucker Sampson, Annandale, Va.; Mrs. Sue Skelton Tomlinson, Gainesville, Fla.; Mrs. Diana Copple Smith, Charlotte, N.C.; and Mrs. Elizabeth Lloyd Roth, Auburndale, Fla. Hope somebody lives near you, and you can contact them.

Kathy Clark Wary wrote that husband Dick has changed firms and the Warys will be leaving as Kathy says, "the Los Angeles rat race and smog for Stockton, Calif." Sons Dan age six and Dave age 4½ are looking forward to new schools, new friends, a new house, and a new baby due late in November. Congratulations on all sides, Kathy.

Joan Akers Rothgeb writes her two little ones are not exactly staying little. At the beginning of the summer her daughter Shannon was just six months old and weighed twenty and one-half pounds—almost as big as her older brother Lee. Lee loves tractors, lawn mowers and "helping" Joan and Eddie with their yard and garden. Barbara Schwab Jesser and her two children visited Joan, and she added Ann Teach Huml is expecting again.

As for myself, taking care to the three wee Taylors keeps me busy—quite busy. Am expecting our fourth child any time.

Would love to hear from you—take out ten minutes and write. Again thanks for the friendly notes—until next time,

Pat

Most of my news comes from three classmates we haven't heard from in a while.

Anne Rasmussen Sale wrote that **Glennie Haynes** Mueller and her new husband George are living in Axton where she is teaching Special Education. George works for DuPont in Martinsville. The Sales saw Jim and **Norma Sandifer** Brown at Glennie's wedding. Jim is a Major in the Marine Corps and they live in New Jersey with their two sons. Included in Anne's letter was news of several other classmates **Wanda Hutcheson** Bruner, Don and their two children now live in Dayton, Wash. where he works for Green Giant **Rosalyn Murray** Lester and Ned are in Blacksburg. He now has his PhD and is working with the Extension Service at V P I The Lesters have a 3 year old son, Craig **Clara Middleton** Leigh and Doug also have one son, Benjamin, now about 1 year old As for the Sales, Raymond is Safety Director at Firestone Synthetic Fibers Co. in Hopewell while Anne has been working in Special Education in Richmond. She has been teaching food service to somewhat mentally retarded teenage boys which she reports has been very rewarding and very challenging. They have a son, Preston who is 3½. Many thanks for all the news, Anne, and please do keep it coming

Received a note from **Martha "Marty" Twark** Vest who wrote that she and Jim attended **Denise Lynch**'s wedding in June which was a gala affair. Dennie is now Mrs John Heuser. Marty and Jim have a daughter (1) and live at 986 Ashland Ave in Bedford She would love to hear from any Alumnae in the area. I also heard from **Ginger Rawlins** Parker who wrote a marvelous newsy letter which I will mostly quote since she put it all down so well Recently "I received the announcement of the adoption of Jennifer Clare Rader by **Dabney Lipscomb** and Lou Rader. She was born on Sept. 4, and they got her September 14 She is their first I am going to Waynesboro to see her. I haven't seen Dabney since she and Lou were married six years ago. They returned to the States last April from Kwajalein Island, where Lou was stationed with the Army. He is a civilian now, working with General Electric in Waynesboro. Their address is. 115 Carman Ave. Apt. 27, Waynesboro, Va., 22980. Two other girls from our class are in Waynesboro: Marjory **Smith** Dunkenberger and Mary **Ellen Morris** Chewning. I don't know much about Margie, except that she was up to visit Jody Ross Flora recently. Mary Ellen and Brad were in Blacksburg until August, where Brad was getting his Master's in Sanitary Engineering They had been here six months before I ran across their name in the phone book, and it turned out that Brad and my husband, Dave, were in the same office. How about that for a coincidence! Brad is now working for a civil engineering consultant firm. They have two children, Stephanie (4) and Russell (1). Their address is: 259 Bookerdale Rd., Apt. 13, Waynesboro 22980 **Jody Ross** Flora and her family are living in Roanoke now, after a year of teaching biochemistry at Old Dominion University in Norfolk Ben is now the clinical biochemist with Roanoke Memorial Hospital. Judy is kept with Missy (6), John (2½) and Jenny (1). We went camping with them and had a delightful time since my girls are the ages of their oldest two. Their address is 1907 Belville Rd , Roanoke My roommate. **Suellen Grant** Knowles and her family spent a delightful summer in Mexico City John was doing research on a Mexican playwrite They all escaped without getting the famous Montezuma's revenge which everyone is supposed to wind up with at least once in Mexico Their little girl, Kaeli, is four Last spring they came to Blacksburg for a visit while John went to a conference in Kentucky (John is now teaching Spanish at the U. of Delaware). While Suellen was here we had a minature class reunion. Besides Mary Ellen Morris Chewning, Becky Ryan Dunkenberger and her three children came from Shawsville, and Mary Kay Fortney Cook came over from Radford with her two girls. Becky's children are Tommy (6), Beth (3½) and David (2). Kay's are Kristin (4½) and Kathy (1). I see Kay's husband, Bill, more frequently than I see her, since he is my girls' pediatrician. Blacksburg is a good town for running into Mary Washington girls. While I was picking my younger daughter up at Nursery school one day, I ran into **Rosalyn Murray** Lester who was picking up her son. She got her PhD in Home Economics Education while her husband was getting his She was expecting her second child but planned to teach at Radford until the baby comes. As for the Parkers, Dave will be finishing his PhD in Sanitary Engineering (more often called Environmental Engineering in this 'Era of Environmental Concern') in December and we will be moving to Beaumont, Texas. Dave will be teaching in the civil engineering department at Lamar Tech. Our address until we find a house to settle into, will be Lamar Tech Station, Beaumont, Tex., 77706 If there are any Texans in our class, I would love to hear from them. In between planning for our move, I've been campaigning for Senate and Congressional candidates. Politics has become a consuming passion of mine in the last three years and after three campaigns in as many years, I feel like a seasoned veteran of the political wars. My girls, Kathy (4½) and Ann (2½) are even getting into the picture by passing out balloons and leaflets at rallies. I understand the Texans play a little rougher at their politics than the Virginians do so I think I will wait a while before I dive in over my head after we move." Hope your candidates were successful, Ginger, and many thanks for filling us in all your news. Do write again when you are settled in Texas.

While back East in late summer I managed to see **Jeanne Chabot** Wallis and her three growing boys Jeanne and Wally live at 12816 Pt Pleasant Dr., Fairfax 22030 and she is anxious to see any Alumnae in the D. C. area Also managed a quick get together with **Karen Vandevanter** Chapman and Kurt who are now located in Glastonbury, Conn. (near Hartford). My husband, Frank, managed to get to Groton, Conn where he visited briefly with Gene and **Rosalie "Ding" Moyer** Schwarz. They were preparing to pack up and to go Monterey, Calif. where Gene, a Marine Major, will attend the Naval Post Graduate School. Their son, Andy is two.

We still have a long list of missing classmates including **Nancy Troxell** Preston, **Mary Catherine Roof, Theresa Kujawski** Schlachter, **Molly Reed**, and **Sandra Staples** Olivares. If any of you know the whereabouts of these girls, please let me or the Alumnae Office know. We need the help of all of you. My next deadline is February 1, 1971 so you have lots of time to send in your news. See you next issue and HAPPY HOLIDAYS.

Linkey

A newsy letter from **Martha Hanks** Cooper brought me up to date on news concerning several of our classmates. Martha and David live in Phoenix, Arizona, where he is the manager of advertising for G.E.'s Computer Division. They bought a new house and Martha is enjoying having it, since they have three small daughters.

Martha's roommate, **Connie Marsh** Pollard was married in February, and she works for the Prince William County Welfare Department, placing foster children in homes. She and her husband, J.K., live in Washington, D.C

Cynthia Fiske Lank and her husband live in Mechanicsburg, Pa., where Phil is a sales engineer for Johnson Controls. Cynthia has been very involved in club and volunteer work, but she vows that she has "retired" to take care of her son and daughter

Cynthia's roommate **Jane Armstrong** Fishback is teaching drama in the Fort Benning, Ga. area. Jane's husband, Dave, who just returned from a tour of duty in Viet Nam, is stationed there

Cynthia passes on news of **Margie Shotton** and **Pat Long**, who share an apartment in Calif. Margie is teaching and Pat has gone into data processing

Thanks to Martha, who sent me her news, and Cynthia's news, also. Keep me informed, ladies

Carol Edwards

Summer has been so busy. Besides our beach hopping, we managed to paint our house. The grass is also displaying more verdure, thanks to green paint drippings

Summer also brought many of us gals together in high school tenth year reunions. Here is the news from one such gathering, the 1960 Thomas Jefferson grads, Richmond, Virginia:

Alice Andrews Jepson and Bob are living in Newport Beach, Calif., with their 3 years old son. **Nancy Blake** Svendsen went from MWC to graduate from Westhampton College in Richmond. Being married to Don, an Army major, means traveling, and they are about to move for the fifth time to Fort Leavenworth, Kansas. Along with them toddles Don, Jr , who is a year old.

DeeDee Boswell Garofalo and Joe have settled in Dover, Vermont, where they are proud owners of an appliance business and their first child due in May **Susan Carter** Butler graduated from UVa School of Nursing and worked in Washington, D.C., before marrying Tim. They now live in Richmond where Tim works for United Virginia Bank. They, too, have a little year old junior!

Diane Dorin Clark and Bill, an accounts representative for IBM, have lived in Woodbridge, Virginia, since their marriage in '65. Diane worked at the Center for Naval Analysis 'til her daughter, Ashley Dorin was born two years ago.

Nancy Gill Ownby, who attended MWC before her marriage to Dennis, now lives on a farm in Glen Allen, Virginia, and tends to son Stephen, 4 **Kay Hardy** Welsh taught school in Charlottesville while Bill was in grad school. At his completion they moved to Akron, Ohio, along with 2 year old Kathryn.

Susan Hart Gunter and Brad make their home in Brookline, Mass., where he is a professor. Susan teaches ABC's too—to their children, Hunt, 3, and Valerie, 1. **Kay Hatcher** Gove taught school for five years before stopping to take care of baby daughter, Avril Terry. John is a planner at Chesapeake Corporation in West Point, Virginia.

Barbara Humphries Davenport taught in Richmond and Roanoke before moving to Woodbridge with Sidney, who is a mortgage banker there **Betsy Johnson** Rule left MWC to attend a secretarial school Then she worked at Reynolds Metal in Richmond until her marriage to Ray, an engineer with AT&T in N Y.

There wasn't much information on some, but remember these girls? **Susan McFarland** Markel '63, **Kay Rogers** Sheppard, and **Ann Keech** Phaup still live in Richmond. **Jane Lacey** Maury has moved to Cincinnati, Ohio.

Susan Schwartz Effron went on to graduate from the Richmond Professional Institute and to become a teacher. She and her husband, Dr. Arnold Effron, have a two year old daughter, Barbara Beth. **Reva Sheehan** Cox taught English in San Diego for a year. Then she had one glorious experience of living in Hawaii while husband, Jay, was in the Marines. From that sunny clime, they moved to Oregon for Jay's career in forestry. Their son is a year old by now.

Another girl to transfer to another school after a brief stay at Mary Washington was **Judy Stone** Gobble, who graduated from Westhampton. She and Ray moved to Orlando, Florida, than back to Richmond, where he works with VEPCO and she manages to teach sixth graders as well as her own 3 year old daughter, Julie, and infant Chris.

Fran Taliaferro Thomas left MWC for Houston, Texas, and husband Emory, who was attending Rice University graduate school. After a stint in the Army in Ohio, Emory moved wife, now 6 year old son E.M Jr., and now 3 year old son John, to the University of Georgia campus for his job as assistant professor of history.

Jane Trevillian Nott went a familiar route that led to graduation from UVa School of Nursing She and Brad lived in Oklahoma during his Army days, and now in Richmond They have two boys, Bradley, 5 and Christopher, 2.

Carole Whitehead Bolt stayed on in Fredericksburg, thanks to husband Paul who is a project engineer with Naval Weapons Lab at nearby Dahlgren Carole taught third grade before retiring to home life with Brian, 4, and Steven, 1 **Barbara Wyatt** Wood, Harold, Patricia, 5, and Robert, 3, live in Monroe, Virginia. Harold is a mechanical engineer.

This may sound like "This is Your Life" T.J.-MWC girls, but it is a way of keeping friendships up-to-date. Our thanks to Nancy Ownby, Jane Nott, Susan Butler, and Judy Gobble for compiling this information.

Judy

Winter is upon us and the three of us are beginning to feel settled here in New Jersey I would love to hear from any MWC alumnae here in the Trenton area. I know **Linda Read**ing Pullen lives near here and there must be others. Please get in touch and let me have your news.

I have a good letter from **Linda Park** Oh who transferred to UVa her junior year. she is living in Richmond at 3869 Gulder Lane and would love to hear from any alumnae in her area. Linda went into the Peace Corps and to the Phillipines upon her graduation from UVa in '64. She stayed there for two years and returned for graduate school where she met her husband John Oh, who is completing his dissertation in Economics at UVa. John is also an Assistant Professor at Virginia State College Linda and John have a daughter, Kia, born in December, 1969 Linda recently saw **Page Perkins** Newman and **Cathy Weber** Bailey. Cathy married while teaching in Germany and this June her first child, Beth, was born. The Baileys have recently bought a house in South Carolina. Linda, I really enjoyed your letter and wish we would hear from more "lost" classmates.

Via the Alumnae Office, I received news of **Norma Bass** Howard. She and her husband, David, have a daughter, Lee-Ann Adair, born February 23, 1969 Norma is in her seventh year of teaching second grade at Dependent's Schools, Quantico. Norma also reports that **Barbara Hagemann** Hester '65 and her husband, Ben, have a daughter, Susan Lynn, born in August, 1970. Among recent recipients of M.A. degrees at Montclair State College was **Gabrielle Judith Poole** Ryan.

Christmas is coming! When you sit down to write your cards, spend an extra ten minutes and send one to me telling about your activities and those of your friends. Until next time

Ruth

August was a month for a small reunion for a few of us. I'll share with you our good times and news learned from the gathering Ben and I and of course Charlotte, age 1 yr. spent a weekend with **Linda Reading** Pullen, Barry and daughter, Anne, in Trenton, N.J During our visit, Linda invited **Linda Jones** Peterson and Fred, **Susan Turner** Weaver and Scott, and **Ellen Duschock** and her finance, Dennis Mahoney for dinner. Needless to say we girls never stopped talking while the men occasionally slipped a word in. Linda and Fred Peterson are still living in Princeton and are expecting their first child in early 1971. Susan and Scott were visiting their families in Pennsylvania, but still live in Calif. Both are school teachers and love California. Ellen lives in Perth Amboy, N.J. and teaches in a high school nearby.

From this group I gathered the following tidbits: **Hope Hemmersley** has a very good job with Tiffany's in New York. She recently went to Atlanta to help open a branch of Tiffany's there. **Hope Horner** O'Connell and husband, Clifford are living in Richmond where Clifford is doing his residency at MCV. They have a daughter, Irene, born March 1970. **Barbara Eisele** Bowen lives in Charlottesville. **Jane Gosnell** is married to a doctor and is a graduate surgical nurse at St. Vincent's Hospital in New York. What is your married name, Jane? **Cicely Walters** Ortolani and husband, Wayne, live in Houston, Texas where Wayne is an engineer. **Maria Maracic** spent the summer in Europe and returned to teaching in Bakersfield, Calif. in September. **Mary Elaine Palumbo** Bickers who attended MWC for two years is living in Charlottesville with husband, Duane and two daughters, Tracy, age 6 and Tamara, age 1. Duane is a consulting engineer with Capital Cement Corp.

I also have news of other girls who attended MWC for several years. **Sherry Little** McLean is married and lives in Atlanta with husband, Don, a pediatric allergist. They have four children, two boys, Douglas and Craig, who are Sherry's children by a previous marriage, and two girls who are Don's children by a previous marriage. **Ellen Leatherbury** Thomasson, husband Burgess, and son Tommy live in Mobile, Ala., Ellen's hometown. Ellen attended MWC our freshman year **Paige Perkins** Newman and daughter Paige live in Fork Union, Va. where big Paige teaches school.

Judy Bailey Givens paid me her semiannual visit in August. She left husband Gary in Denver minding the house and the cat until she returned for the opening of school. Judy has changed teaching jobs this year, moving from Boulder, Colo. to Denver. The new school is closer to home and the pay is better. Gary has only one more course to complete his master's in Planning. They are undecided whether to stay in Colorado or return to the east coast

I had a letter from **Helen Vakos** Standing with some news which I'll share with you. Helen, husband Mike and two children ages 3 and 1½, live in Virginia Beach where Mike sells real estate Helen writes that **Joanne Crockett** D'Alton and husband, Jimmy live in Richmond. Joanne teaches near Richmond and Jimmy practices law in Petersburg **Sally Crenshaw** Witt and husband Sam live in Surry, England Sam is a lawyer and at Helen's writing they were expecting a baby in Sept. **Sue Parker** Burton and her husband live on "Oak Island" in Suffolk and are expecting their second child in February. **Diane Dorin** Clark and husband live in Woodbridge and have a daughter, age 2. **Barbara Humphries** Davenport and Sidney live near Diane and are expecting their first child in November. **Becky Spears** Wright and husband live in Norfolk and have one boy. Thanks to Helen for her letter. I certainly do wish others of you would send some news.

No doubt you have all received a letter from Ellen Duschock. As fund raising chairman for the Alumnae Association this year she needs our support; as members of her class of '64 I hope we will all support her and come out No. 1 in the current fund raising drive.

Carol

Having read about the need for class agents in the last edition of the Alumnae News, I decided to volunteer my services. I do hope that I will be hearing from many of you whom I haven't seen since graduation.

Dick, two year old Lisa, and I are very much enjoying living in College Park. The graduate apartment complex in which we live provides Lisa with many playmates her own age. Dick will complete his course work this semester and then spend about a year working on his dissertation. Meanwhile he is an assistant instructor at the University of Maryland. I am a full-time mother and housewife.

Abbie Donald Tiller is expecting her second any day. Hopefully, it (she wants a girl) will be born by the time this is printed. David, almost three, is a doll with red hair and blue eyes. Abbie, husband George, and David recently moved to Falls Church.

Margaret Mahon Goldman has been promoted to buyer of the bridal department at Jelleff's in Washington, D.C. She and husband Lew are living in McLean. Lew is a lawyer in the District.

While visiting my parents in Norfolk, I ran into Edie Goldberg whom I hadn't seen since graduation. She looks terrific. She had lots of news, most of which I can't remember. She did mention however that Rochelle Leifer was married and living in New York. Edie is working for the government in the District.

While I was in Norfolk I attended a baby shower given by Mary Lou Skeeter McDaniel for **Brenda Hood** Farrell. Brenda had an 8 lb. 12 oz. girl —Jennifer Elizabeth—on 21 September. Brenda is living in Norfolk with her mother while John is overseas. Brenda writes that she and the new baby are both fine.

Mary Lou and Steve moved back to Norfolk last May. Mary Lou is teaching and Steve is working for the Norfolk Redevelopment and Housing Authority.

I also saw **Carolyn Kennett** Barry while I was home. She and Dick have two beautiful children—Michelle 3½, who looks just like Carolyn, and Christopher 2, who looks like his father.

Haven't heard from Judy Strawbridge Dickinson in ages. Judy—write!!

Donna Robinson, who is now living in Atlanta and flying for Delta Airlines, called last May (She was at Dulles in between flights.) At that time she was planning her third (or fourth, I have lost count!) trip to Europe.

I hope I'll be hearing from you all soon Any of you that live in or around the District please call or come by; I'd love to see you.

Lee

My selection as one of your class agents came just one week before publication deadline so unfortunately I had no news to pass along on any of our classmates. I will serve as one of your agents for five years but I need your help so that the Class of 1965 will have an interesting news column. Please sit down real soon and drop a line to me or one of the other agents. We'd love to hear from you

Jack and I returned in July after a unique and exciting year in Iceland. I could just talk for hours about our wonderful experience. We have purchased a little home in Bel Air, Md. and are busily getting adjusted to American ways again.

Do you know the whereabouts of our following classmates: Patricia Cuffia Rankin, Meredith A. Reed, Mary K. Register, Cadee L. Rhett, Anne L. Richmond, Nancy L. Ridenour, Georgiana Barry Rimicci. Sylvia Portenier Rorer, Page G. Roughton, Judith K. Royal? I have sent our bloodhounds but so far no luck. If you have any of these girls' addresses, please let me or the Alumnae Office know. Thank you.

A very Merry Christmas and a wonderful New Year to you all. See you in March.

Betty

I've received several cards and letters this time, so I'll try to be concise. Thanks to all who wrote. Keep the news coming!

Our classmates are really movers—especially during the month of August! Nancy Alford Hernandez and family left L.A. to return to the East Coast. Pulling all their belongings in a U-Haul, they endured a few mishaps along the way, including two flat tires and a hurricane in Texas! They are hoping to settle in the D.C. area. Nancy sent us a darling photo of 5-mo. old Andrew, who sure looks like his daddy! While in Va., Nancy enjoyed a small reunion in Richmond with **Marilyn Wood** Hunter and **Judy Blum** Wasserman Judy was visiting from St. Louis.

Kathi Gelsleichter Rottiers and Bob also moved in August—to Michigan. Bob is now out of the service and has taken a position with Burrough's Corp. in Detroit. They have bought a home and have ben busy unpacking and redecorating.

Kathi wrote that David and **Jean Rogers** Oxley recently moved into a house in Fairfax.

Dale Quel Woods sent a letter full of alumnae names. Also August movers, Dale and Clyde are now living on base at Quantico. Their new neighbors include **Martha Puller** Downs '67, who has a son, and **Jane Gideon** Squires '65, who was two sons. Dale said that during the first week in their new quarters they were visited by **Martha Watson** Schmidt '67 and husband Joe, who were on their way to Pensacola and Naval Flight School. Martha went to the U. of Okla. for her junior year and has since received her master's in library science from there.

According to Dale, **Tina Palmer** Gemmill '67 is expecting a baby at the end of January, and Tina is determined that it will be a boy. Also expecting in January is Sandra Jones Lynne. Sandra and John have moved to Escondido, Calif.

Carolee Prasise Taylor and Keith have bought a beautiful house in Manassas, which they and 3-yr. old son Bradley are enjoying.

Sandra Phillips Harris still lives in Va. Beach, where husband Junie is stationed. They have a 2-yr. old daughter and a baby son.

Candy Schumacher Jepsen is teaching p e. in Allentown, Pa., while husband Moe continues school.

Dale said that she did some traveling this summer and saw several MWC girls. In Chicago she met **Carol Simmons** Van Der Kieft '68 who was expecting her first baby. (Michael, Jr. later arrived on Sept 29th.) Dale also spoke to **Carolyn LeHew** LeCesse who transferred to U.Va Nursing School our junior year. She is still a nurse, and is now the mother of a daughter, Dana, born March 29th. In Conn., Dale saw **Mary Ann Pyne** White, husband Carl, and daughter Courtney, who were visiting Mary Ann's parents. The Whites are still stationed in Omaha, Neb

As for Dale, she is continuing to teach 4th grade in Woodbridge until Clyde leaves the Corps next year. After that, no one knows where they'll go, Dale said. Thanks for all the news, Dale.

Susan Hoge Ripol wrote that her husband George had just received his master's degree. She also enclosed a photo of her darling little Katharine at age 3 mos.

We received a beautiful postcard from **Barbara Marre** '67, written while enroute from Kauai to Maui, Hawaii. What memories that brought back to Ken and me! You're certainly making the most of your job as a travel agent, Barbara.

I was happy to hear from **Chris Brooks** Young recently. She reported that after Hubie graduated from law school, he practiced in Suffolk for several months before leaving for Naval Justice School in Newport, R.I.! where they spent last winter. He's in the Navy Judge Advocate General's Corps, and could be in the Navy for up to 3 more years. Thanks so much for writing, Chris.

Pam Kearney Berg sent some intresting items. In June she was visited by John and **Peggy Beeler** Fultz who were enjoying an "anniversary vacation" in Williamsburg. Pam said that **Becky Smith** Taylor also came by with her cute little 18-mo. old Margaret. Becky was expecting again in Sept She and Dave have settled in Roanoke.

The Bergs hosted quite a reunion in mid-Sept. **Ambler Carter** Kamp, husband Gary, and son John (5 mos.), and **Carolyn (Kirky) Kirkpatrick** Smith, husband Reese, and daughters Lee (3) and Ambler (6 mos.), and **Nancy (Howie) Thompson** Mountjoy and husband Jim all got together with Pam, Steve and Ken (5 mos.) in Norfolk What a wonderful party that must have been! Pam said they went out to dinner at the O Club at the Naval Station. The Kamps came from Calif. and were visiting Amber's parents for two weeks. Kirky and Reese were also visiting their parents. Reese was planning to go graduate work in business at the U. of Ga. this fall. He had just separated from the Air Force after 4 years in North Dakota Howie and Jim live in Mechanicsville, and it was a 2-hour drive for them to complete the reunion of Bushnell 305-307. According to Pam, "It was quite a successful evening and the husbands hit it off well considering their diversity."

Speaking of reunions, be sure to make plans to attend our Fifth Year Class Reunion coming up in April.

Now, anyone who is traveling South for the winter is welcome to stop in Jacksonville for a visit. Our house is just a few minutes off Rt. 95, and, although we still haven't finished unpacking (thanks to a certain 1-yr. old son!), we'd love to have company. We're thoroughly enjoying the "Bold New City of the South," and would love to show you around.

HAPPY HOLIDAYS TO EVERYONE!

Ginny

New Jersey is turning out to be a great spot to be located. It seems that there are quite a few MW gals in the area. Very close is Kathy Goddard Moss in Yorktown Heights, N.Y. Kathy, Tom and little Ellen have moved into their home and really love it. **Eileen Goddard** Albrigo is in New Haven, Conn. only an hour away. She is teaching second grade and John is interning at Yale. He is going into orthopedic surgery. **Elizabeth Ann Martin** you will all be glad to know recovered quite successfully from her two operations and is back in California teaching. She can be reached at 16661 McFadden Ave., Apt. 23, Tristin, Calif. 92680. We have a long phone conversation and here's a quick sketch of her activities since graduation—Ann taught for two years in Williamsburg and managed to fit in travel time to Norway. She also spent one summer in Williamsburg interpreting 4 languages at the Rockerfeller Foundation —then she drove to California with Winnie Woodson and has been teaching there since—except for her six month medical interlude—and now happily she is teaching again!

Congratulations are in order to **Patty Bergin** Bergman and Don—they have a new son No. 2—Chip—He weighted in at 9 lbs. 2¾ oz. Don is in test pilot school and follows a rigorous schedule, but was able to have a week off to enjoy the new baby.

Congratulations also to **Barbara Clark** Browman and Michael—both were just awarded addition advanced degrees—to Barb another master's and to Michael his Ph.D.—He has also been awarded a post-doctoral fellowship at the Univ. of Wisconsin—a marvelous research opportunity—congratulations Mike!

A great three page letter came from Linda Glyon Hutchinson from Houston. She writes that after teaching in Hampton. Va she and Cicely Walter Ortolani '64 went to Houston Linda works with an oil company and figures financial statements. What fun! All that money on paper! Both Linda and Cicely got married in May. She writes that they are now a happy foursome—and good bridge partners!

Dave (Linda's husband) is from Penn State and works at the Manned Spacecraft Center in the Lunar Receiving Laboratory. The Hutchinson wedding served as a mini reunion—**Carol Ann Delano** Neist '65, **Betty Delano** Weiss (Betty also attended MWC). **Suzanne Mason** Haff '65 and **Susan Carroll** Silea were all present.

Anne Heinline '66 is teaching in San Francisco and loves every minute of it. **Pris Loomis** '64 is teaching in Newport News and **Nancy Wagner** Latham '64 and husband Pete are stationed in Charleston, S.C. **Winnifred** L. Woodson is a full-time student under a U.S. Office of Education stipend for an M.Ed. in deaf education from U.Va.

That seems to be all for this issue— The holidays are coming—do put Ginny or me on your list and send us a little news—We love to hear from you!

"I believe it's about time I got back in touch with the Alumnae News. Last June Skeet and I left Chapel Hill after his graduation from the UNC MBA School. We had a great six weeks vacation on a "do-it-yourself" tour of Europe which was a wonderful experience we'll never forget. Now we are very happily settled in Greenville where Skeet is employed with the Texize Corporation as Assistant Product Manager. I have retired from full time teaching and am getting ready for an addition to our family in late March.

While in Europe we spent several days with **Mary Lou Morphey** Lee and her husband, Asa, who is an Army dentist stationed in Heidelburg, Germany. They are having the time of their lives during this three year tour in Europe. Asa says he enjoys his work, but I don't know when he has time to work between their ski trips as well as sightseeing trips everywhere. They spent several days with us in Berlin and then recently a week in London and England.

Skeet and I ran into one of our Willard Freshman Councilers, **Marcia Fretwell** Heuser '65, in the London Subway—couldn't believe it She and her husband had been in London for a year and were returning to the states this fall when she would begin Medical School at George Washington University.

I recently received a newsy letter from **Nancy McDonald** Legat which I will pass on to you.

"**Marion Briechle** was married to John Yoooe on April 11 of this year and they are living in Alexandria

Ann Boatright '68 is married and living in Rochester, New York.

Judy Jackson '68 was married this past August, and I think she and her husband are living here in Richmond. He is a med. student, and she is teaching school, junior high, I think.

Georgianne Cauthorne '70 worked part of the summer at Vepco in Richmond until she could find a permanent position.

My husband and I are living in Richmond and I have recently 'retired' from Vepco to stay home with our two year old daughter, Julie. I love being home and all is well with the three of us."

Many thanks, Nancy, for the news. Nancy inquired about my freshman roomate, **Carol Humphries**, who transferred to the Univ of Ga. She is now Mrs. Michael Marshall, and she and her husband are living in Atlanta where he is a stock broker.

Ellen Prasse Beasley and her husband have been blessed with their first child, a son, Joseph Scott, born Sept. 4. Ellen and her family are living in Va. Beach.

Mary Mac Blanchard Harris and Craig are still in Richmond where he is in his final year of Law School at T. C. Williams Mary Mac moved up this year from the third grade to the fourth grade which she seems to really enjoy teaching. Mary Mac keeps me posted on what's happening in Richmond with MWC grads she sees. She wrote that Pat Johnson Orgain '66 is expecting in March, so she did not start teaching this year.

Connie Burkhart Goggin and Rodney are in Williamsburg where he is beginning Law School.

Mary Mac also wrote that **Claudia Stell** '69 married Jimmy Hawks of Portsmouth. He is in Law School in Richmond and she is a speech therapist.

Helen Callaham Hutter and Chris are still in Omaha, Nebraska counting the days until he gets out of the Air Force. They have hopes of being out sometime this

winter and are looking forward to returning East to settle.

JuJu Waechter Taylor and John took a trip to Europe last spring after John's graduation from Law School in April. They are now settled in Jacksonville, Fla., where he has joined a law firm and is very happy with his work. JuJu and John expected their first child in Nov.

Laure Anne Spindle Brooks and Frank are now living in Williamsburg, Va. She is teaching at the West Point High School and he is employed at the Chesapeake Corporation.

I am thrilled about things happening at MWC now particularly the establishment of a Phi Beta Kappa chapter on our campus. Congratulations to Chancellor Simpson and all who worked to make this possible.

Betty

Greetings to everyone!

I have some tidbits of news from a couple of you, but please keep the notes coming this fall for the winter issue! I enjoy hearing from you all.

It has been an extremely hectic fall for my husband Murray and me, involving a lot of traveling. I spent two weeks in Chicago on telephone company business, and Murray continues to work as a defense counsel on the Army My Lai case. He is presently on a month's journey to investigate witnesses in Texas, California, Mexico, Hawaii, Okinawa, and, yes, even Vietnam. Unfortunately the Army still has him in mind for a year of duty in Vietnam, beginning February 1971. Believe it or not, he's not a career man, though we often feel that way!

Murray and I spent the evening recently with Patti and Frank Reider (**Patti Marillo**) They're doing fine with their new baby, Jessica. We had so much admiration for their apartment, with it's many treasures from the Peace Corps in Brazil. It was quite a contrast from ours, with many hand-me-down antiques and not-so-antiques!

I received news that Anthony and **Gail Osborne** Tiska had their first child, a girl, Julie Gail, on Sept. 1st. Congratulations!

Jan Thorpe Shawen and her husband Mac have now moved from New Haven to Tennessee, where he'll be teaching at the University of Tennessee.

Susan Eike Spalding has received her MA in Dance from Columbia University and is now Chairman of the Dance Dept. of the School of Fine Arts, University of Wisconsin at Milwaukee, Wisconsin.

My sister, who transfered in the "great wave" from MWC to Virginia this fall, reports that somehow things "ain't quite like MW . . ." I wonder why!

That's all the news I have. Enjoy the coming holidays and try to get in a letter to me!

Dear 68'ers

Marcia Martin writes that she is still living in Fredericksburg and teaching 3rd year non-graded primary at Stafford Elementary. She's still enjoying her job and loves the kids.

Susan Wagner Buelow and husband Bob are still in Chicago where he works for Johnson and Johnson. Susan has been teaching children with social and emotional problems at a suburban high school. She finds this somewhat frustrating, but also very rewarding. She and Bob have been enjoying weekends of travel and are having fun decorating their apartment. Susan also writes that **Exa Mote** Grubb and her husband are living in Chicago.

I received a nice long letter from **Lissa deShazo** Willis. Her husband, Joe, is back from Vietnam and I assume he's now attending graduate business school as planned. I know Joe was glad to get back and finally see his daughter Jennifer! Lissa has seen many alumnae.

Georgia Carroll Dinsmore and daughter, Elizabeth, came to visit. Georgia had seen **Fran Rogers** Bryant soon after the birth of her daughter, Jennifer. Several alumnae from Russell Hall had a reunion in Richmond which Lissa attended. It was given by **Susan Bright** Voshell. **Virgie Klipa** (now a Pan Am stewardess) and **Bobbie Jarrett** Gehr were there, as well as **Patti Dickson** Hoover and **Janet Davis** Brabm. Bobbie has a daughter Kimberly, Janet has a girl named Alison, and Patti a boy named William. Thanks for all the news Lissa — keep me posted on your latest whereabouts.

I attended **Trent Costley's** '69 wedding on October 24 to Chuck Clark. **Terry Hutto** Phillips and Paull were there. They have returned to the D.C. area where Paull is working for Geico and Terry is working with retarded children. **Mary Jo Tatum** Larkin and Ernie were also there. She is busy teaching in Richmond, and he is busy being an intern!

Pam Tompkins Vance and daughter Sally are planning to return to Virginia Beach where Pam will attend graduate school at Old Dominion.

Guess that's all for now—please write!

Donna

Lots more news than usual this time, and I'd like to thank all of you who did take the time to write. It really makes this job a lot easier. Sixty-eighters are travelers, it seems, since this time I received a letter from Okinawa, one from Mexico, and one from Brazil! **Susan Bottimore** Martin just joined her husband Milt at their new Okinawa duty station. They are having a ball getting settled in the Far East, especially since they hope to stay there at least two years. They plan to travel to Japan and Hong Kong and Susan is already enrolled in some of the classes on base in Chinese, Japanese cooking, and flower arranging. Susan told me that **Linda Clement** Barnes is in computer programming at the Norfolk Naval Base and that she and Milt saw **Barbara Zieses** Pickering, who is teaching math in Falls Church, and her husband at the beach along with Susan Lewis and her husband. Susan is still doing social work, even though she is getting over an auto accident last spring. They are expecting a baby soon. The Martins would love to see any MWC'ers who happen to land on the island with service husbands. Her address is: Mrs. Milton C. Martin, 6990 SS, Box 29349, APO San Francisco, 96239.

Sally Gaffney Meredith and her husband Bob are in Apizaco, Tlaxcala, Mexico working for the Methodist Church. About Apizaco, Sally says, "it has electricity, running water, and 6 paved streets, better than the last place we lived!" Shopping at the local market include tripe, lungs, and entire pork heads (Robbie tripped over one once!). At least it is never boring. Also, this kind of job lets she and Robbie be together a lot more than most people. Sally heard from **Ann Scott** Lankey who is to finish her master's degree work by September. Kenny got out of National Guard training camp in August, thank heaven.

My third "foreign" letter came from **Helen Bradford** who is a primary principal in Campo Grande, Brazil. She says it is a modern enough city, but unfortunately, southern Mato Grosso is Brazil's answer to the Oklahoma Dust Bowl. She loves it, however, and is enjoying her work. Helen also sent the happy news that she is engaged to Wally Ennis who is now out of the Coast Guard and working for Robertshaw Controls as an Electronics Technician. They plan to be married in March of 1972.

Janice Bryant wrote and even though she is in D.C., she travels as a stewardess for Pan Am Airlines. In her class in Miami and also in Washington was **Caroline Moncure** (67) **Virginia Klipa** was a class behind her and is based in New York. **Paula Taylor** just transferred to San Francisco and **Patsy Wigglesworth** resigned at the end of September and was married in October. MWC stewardesses also include **Martha Wilbourne** ('69), based in Seattle, and **Debbie Morrison** ('69), in D.C. with Janice. These girls should say hello to my Dad next time they are in Miami. He's the chief medical officer with Pan Am there.

Janice sent word that **Marilyn Wheeler** is working with the Library of Congress in D.C. **Betty Haskins** McCloskey is in Miami with her husband Bob, who works for an accounting firm by the name of Haskins! She was recently in Charlottesville for the marriage of **Susie Brown** who just got her master's degree in Biology from U.Va. **Lori Haig** is in her third year of law school there as well. **Mary Lou Hull** Soper is working at the Taylor Model Basin and her husband Mike is getting out of the Navy. **Cindy Carr** Kelly ('69), whose husband Barry just returned from Vietnam, is also in the Washington area. Thanks for all the news Janice!

Another traveling 69'er is **Sandi Flint** Bowman. Her husband Bob received his Ph.D. in electrical engineering from U.Va. in February and, to celebrate, they took off on a three month trip to Europe. They traveled through Portugal, Denmark, Holland, Spain, France, Italy, Switzerland, Austria, Germany — the works. Naturally they loved every minute of it. They are now back and settled in New Jersey. Bob is doing research with Bell Telephone Labs in Holmdel. Sandi writes that **Suzy Smith** Huston, her husband Otis, and son Matthew (born last December) are in Tokyo. Otis is in the Air Force and they are all very happy about their two year tour of Japan. **Janet Servies** Davis and Miles are at Quantico. Janet flew to Hawaii in April, 1969, to marry him while he was on R and R. Miles was later sent to Okinawa where she joined him for several months. **Sandra Wolfe** Rapuzzi is living in Culpeper while Don is in Vietnam. Their son Michael was born July 8. Don will be home in March.

It was good to hear from **Cindy Long** Wedel who is in Baltimore. Just up the road. Since graduation, she's been in graduate school at Johns Hopkins. She received her M.A. in political science last June. Ph.D. exams are in November and then the dissertation. Last summer she returned to Fredericksburg for a month to help Senatorial candidate George Rawlings campaign as his press secretary. The rest of the summer was spent at the University of Wisconsin in a law institute and acting in a Gilbert and Sullivan operetta — much more fun than going to school, she adds. Also in the last two years she has taught American government and journalism at Hopkins and is now teaching part-time at Baltimore Community College. She's living in an old townhouse in the city and has become an addict about gourmet cooking, much to her own surprise. She says her door is always open, so drop by when you're in the area.

My last letter was from Alexandria, very close to me, from Mrs. C. R. Adams. We knew her as **Edith Potts**. She was married to Chris on June 20 in Williamsburg, Virginia. They are now living in Alexandria where Chris is a sales representative for Humble Oil. Edith, like me, is teaching in Prince William County.

All of you have a happy holiday season and send me a Christmas card with a little news of yourselves so that I can include you next time. Till then, Merry Christmas!

Judy

It is difficult to believe that another school year is almost half complete—our third year of teaching! I am still teaching Junior and Senior English at Stafford High School, where we are using the new thematic approach to English. That is, each six weeks the students selects the unit which interests him the most from a stenciled selection sheet. The six weeks now in progress offers such units as "The Fickle Finger of Fate", "The Future is in Eggs" (my unit of the theatre of the absurd) and "Search for Identity", and the students and teachers are really much more interested and stimulated. Besides teaching, I am working on my master's degree through graduate extension courses from U.Va., taking ballet twice a week, serving as president of the local MWC chapter of alumnae, working on Sundays at Aquia Harbour as a hostess and model, and directing plays for the school drama club.

Louise Sbick Jargowsky is still teaching at Stafford Junior High and is doing just fine with her gerbils! **Stephanie Danahy** Shelhorse is doing well — almost —with a baby; she is due in April and is living in Hampton where she is teaching until the event.

Helen Sullivan Lovelace is still in Valparaiso, Florida and teaching seventh grade English, which she says is keeping her young and on her toes.

Lorelei Haig wrote to say that she wishes the news would reflect more of the graduates lives in society than just their marriage and babies. I am sure we concur with her so please do as she did and send your agents the news!!! Lorelei is in the last year of law school, assistant to Judge Sweeney, and works as a probation officer under the auspices of the Eighth Regional Juvenile and Domestic Relations Court.

Barbara Bailey is in her third year of law school at U.Va., where she is a member of the Law Review and has authored a note to be published in the near future. Last summer she clerked for the National Council of Juvenile Court Judges in Reno, Nevada and is currently working on a handbook for Juvenile Court Lawyers as well as co-authoring an article on lie detectors and the coercion of confessions from criminal defendents. In addition, she is active in planning the first Black Recruitment Conference to be held in Virginia. We're really proud of these colleagues who are really contributing to our society! Barbara's roommate, **Belinda Lowenhaupt** is working on her Doctorate in Philosophy. Her Master's Thesis on temporal factors in chromatic adaptation will be presented to the Eastern Psychological Association in New York later this year. This achievement is really wonderful.

Venus Jones is a third year medical student, too, and is doing clinical rotations as well as being involved with a Community Health Project for free medical services.

Betty Woodard Gross wrote to say that she and Joe were married June 15, 1968. He graduated in city planning and is now working on his master's in public administration. Betty was in the co-operative program with U.Va. in medical technology and is now working as a registered medical technologist at Martha Jefferson Hospital and loves it. She also wrote that **Beth Stanford**, Betty's roommate who left MWC after two years to go to Germany with her parents, is now a secretary to a congressman in Los Angeles. Just look in the great places, an it seems there is a MWC'er there!

Karen Sinclair Saum and her husband, Bill, are in Pittsburgh and the parents of a baby boy, Powell Browning, who was born July 30, 1970. **Martha Wideaer** Tolcher and her husband, Dick, are also in Charlottesville, and friends of the Cross' Dick is working on his master's in education and they have a son, Mark, who was born August 7, 1970. **Karen Stifft** '70, **Cathy Neale** '70, and **Donna Accenttullo** '70, are in master's programs in speech and audiology there, too.

Many thanks to those of you who took time to write such great information, I realize that it takes time, but we all appreciate hearing about you so please keep it up! Those of you reading this news who have not written your agent, please do so. Stop by the "Burg" and visit.

You girls have been rather delinquent in writing . let's improve for the next Newsletter, O.K.?

Word has it from **Mary Rozanski** that a number of '69ers and '70ers are mingling. She was working with **Sally Rodgers** as a computer programmer in White Plains for AT&T until last Feb. when she was sent back to F'burg, of all places, to aid in the recruiting program at MWC. Also working at AT&T are **Jane McKenzie** '70 and **Marion Moncure** '70. Mary is now in California studying for an M.A. in Spanish at San Fernando State!

Caroline Bettwy has been living in Alicante Spain since Sept. '69 but was back State-side for a few weeks in the latter part of the summer . . . **Valerie Dannehl** Lane and her husband are living in Temple, Texas where her husband is stationed in the Army . . . They'll be heading to Calif., too, in the near future, if only for a visit.

Edleen Garrett '70 is living in Hampton and teaching H. S. Spanish. Spanish seems to have drawn quite a few of the MWC grads to it's occupational realm . . . Also a grad student in Spanish is **Mary Elizabeth Kidd** who is at

the U. of Minnesota. She is also a teaching assistant, and is totally in love with it, and Minneapolis (in spite of the freezing winters).

Susan Labrenz is working as a caseworker for the Dauphin Co. Board of Assistance. She says that she is growing in many directions at once, and is thoroughly enjoying an active personal life as well as her job. Word was also sent my way that Carolyn Kreiter is having a ball teaching all classes of high school English at Springfield High in Fairfax Co. . . and also is involved as a Sponsor of the Future Teachers of America, member of their writing committee, and a team-teacher for an after-hours course in Advanced Placement! Sounds as if she's a busy girl! Her urge to teach College level English also looks promising, as she is hard at work on her Master's.

The former Barbara Nichols is now Mrs. Bernard L. Reams. They were married last Feb. Barbara is teaching in Hampton. Linda Taylor is also in that area, working as a reporter for the Newport News afternoon paper.

Personally, I was surprised and delighted to have Frances Smith Armstrong drop in this past summer. Christ has been drafted, sadly, and Frances will continue to teach in Fairfax. She loves teaching, though, and hopes the time that Chris is gone will pass quickly. Also in Fairfax are Karen Jones and Kathleen Rowan who are rooming together next to Kitty Culhane and Nancy Gleason. Jean LeMasurier is supposed to be touring Europe with Ann Randolph this fall, and Ann will be heading for Jerusalem.

Well, that's about it! Kenny and I are still well and happy . . and I have finally found a job operating a one-girl office . . . keeps me on my toes, and is really teaching me a lot . . Oh! Before I forget, I got a letter recently from Susie Turner Johnson. She and Charley are super-active in Lancaster, Pa., and Susie is back working with the ever faithful Girl Scouts, after a brief encounter with a job at a bank, which she said was driving her up a wall! Kate Huntington Ginman '66 ('69) has joined the American Red Cross staff at Walson Army hospital, Fort Dix, N.J.

Please let me hear from more of you '69ers!!! It's fun getting your letters, and even more fun for you to read about your fellow classmates . . . O.K.???

RUTH ANN

As you can see from the new address above, Johnnie and I have moved again. It looks as if we'll never spend two Christmas seasons in the same house, especially since Johnnie has re-enlisted in the Army. Since we'll be a military family for at least the next six years, we've decided to move to an unfurnished apartment and are beginning to collect our own furniture.

I have received several very newsy letters from Gloria Shelton. She received her MAT in social studies from UNC in July. In August she played the typical tourist and squeezed as much of Miami as she could into her weekend visit there. Gloria is presently teaching junior high school in Danville.

Gloria tells me that Miriam Drayer Antich and husband Peter are both in graduate school in physics at Johns Hopkins. Karen Dyer Norris is also in grad school. She is studying dance at the University of Illinois. Miriam Colwell was in grad school at Columbia last year. Rumor is that she visited Italy this summer.

It looks as if our class is still very much involved with the USMC. Pidge Williams Waldon and her husband Danny are stationed at Camp Lejeune for the next year. California is the temporary home of Stephanie Boone Joanis and Marine husband David.

A note from Phyllis Newby informs us that she became Mrs. John Thomas Thompson, Jr. on June 19, 1970. Carolyn McMaster '70 was maid of honor and Marilyn Maeder was bridesmaid. Phyllis is teaching sixth grade in Montgomery County and John is in graduate school at VPI.

Patricia Morris is now Mrs. Gerald Louis Cody, Jr. They are living in Santa Anna, Calif.

Judy Searcy is a Red Cross hospital recreation worker at Malcolm Grow USAF Medical Center, Andrews Air Force Base, Washington, D.C.

Maria Vlattas '70 is working as a physicist at the Aberdeen Proving Grounds. Gail Shifflett '70 is a secretary at the UVa Hospital.

This is the second year that Linda Thomas is teaching math at Spotsylvania High School. Her college roommate, Eloise Bell Sloan, is spending her second year as a math teacher in Norfolk. Another second-year teacher is Charlotte Padgett Duis who is teaching math and physics in Bedford.

I'd like to wish you all the happiest of holiday season. How about starting the new year off right with a note to your Class Agent? We all enjoy hearing from you.

Gail,

'70

Hi all!

As far as I can tell it's been a happy and busy five months for us 70'ers since our graduation. I for one spent seven fantastic weeks touring Europe with Mary Karen Vellines. We limited our travels to France, Spain, and Italy in an effort to get the true flavor of a few European countries rather than skimming the surface of all of them. Needless to say we were richly rewarded and long to return to cover another segment of the Continent. We also highly recommend such a trip to anyone with a love of life and about $1000 (or even less)! Since my return, I have been working for the National Council on Crime and Delinquency, a three-year parole-decision making project. It's a fascinating job; however, the position is only a temporary one so come next April I will probably be contributing myself once again to the unemployment percentage!!

Besides myself, many other classmates have a lot of news to relate. Janet Weatherford and Sarah Carter have set up their bachelorette apartment in Richmond and are thoroughly enjoying their independence fling. Janet is an administrative intern in the Dept. of Welfare and Institutions while Sarah teaches all levels of Latin at Henrico High School.

Winnie Woodson '66 is in the same program with her. Karen also says she did get engaged this summer but "can't get married until I'm out of school." That's quite an incentive to finish graduate work! Another industrious alumna in C'ville is Pat Schumaker who is working on her M.Ed. in School Psychology. She's sharing an apartment with Anna Howerton '69 and both of them welcome any visiting alumnae to the C'ville area. Pat also sent news of Beverly Estes' '71 marriage on August 29 to John Crouch. The newlyweds are now living in Hampton-Sydney where Bev is taking her last six hours at Longwood so she can graduate from MWC next June with the rest of her classmates.

Still another C'ville resident is Demi Strother Runkle who gave us all her news since she left MWC the summer of '69. After completing some teaching requirements last fall, she's been teaching first grade in Albermarle County and in February plans to begin her Master's in Early Childhood Education. She was married on January 31. With Demi in C'ville are Fran Halupke '69 and Kaye Reynolds '69 who are also teaching in Albermarle County. Demi also keeps in touch with Susan Seay '69 who got married May 9 and is currently living in Washington, D.C. and working for WMAL-TV.

As a brief respite from Va. news, Carol Richardson Dandy, hailing from Iowa City, writes of her August 9 marriage to Darrold. For their honeymoon, they spent a fantastic week in the Virgin Islands and Puerto Rico. While Darrold is in his second year of law school, Carol teaches 11 and 12 grade English in a culturally deprived area. Although she admits this is a tough job, she still enjoys it very much especially when she sees how well her students are progressing.

From Framingham, Mass., Donna Brown Taylor writes of her marriage to Ralph on June 14. After a Bermuda honeymoon, Donna worked as a personnel counselor in Annandale until they moved to Mass. where Ralph will work for two years with the Public Health Service, National Air Pollution Control Administration. Another settled '70er is Diane Wingfield Smith who is teaching third grade at Murray Elementary at Ft. Bragg, N.C. Her husband, Bobby, made first Lt. in the spring, and they'll probably be stationed at Bragg until Feb. After that, who knows where? Also from North Carolina, comes word from Janis Sullivan Meaker who was married to Tom on August 15 at Quantico. Janis is now teaching science at Camp Lejeune's schools while taking grad courses at East Carolina. In Jan., 1971, when Tom is out of the Corps, he and Janis will be off to Arizona for a job and more school. Still another "Military couple" is Anne Sommervold LeDoux who married John on August 8 at Quantico. The newlyweds are living in Woodbridge and Anne teaches fourth grade in Dale City along with Donna Sheehan '68.

Received a newsy letter from Kathy Reynolds who it not only teaching French in Roanoke County, but sponsors the Foreign Language League and the Varsity cheerleading of the high school, while taking an art course through a UVa extension. Since graduation Kathy has run into Linda Charnock Pearson '68 who teaches math in the Va. Beach area. Kirsten Mackey, an elementary school teacher, lives in Boston with her sister after spending six weeks this summer in England. Kathy also sends news of Tricia Williams Blow who lives in Alexandria and works for Bell Telephone, of Martha Ritter who will start training as a Pan Am stewardess in January, and of Dell Goss Shotwells who is studying in France with her husband.

Back in Va., Sandy Sayre is living at home and working on her Master's at Old Dominion. By August, 1971, she hopes to have it completed whereupon she'll teach either high school or junior college. Besides studying, Sandy also bags groceries at the commissary to help pay school expenses. Such perserverance!

In the northern Virginia area, Dorcas Sears shares an apartment in Alexandria with her sister while working for the electric power company in Washington. She's engaged to a Va. graduate and hopes to be married in the spring after which they'll move to Florida where David plans to attend law school. Also in Alexandria comes news from Angie Taylor Hume who was married to Charles, a U.S. Park Policeman on July 25. Angie is now working as a secretary at the Educational Resource Center of Title III in Falls Church, but hopes to have a teaching contract next fall. The Humes also welcome any visiting alumnae to that area.

From the mailman comes news from March McLaughlin Schweitzer who was married on June 20. She and husband Nicholas then spent six weeks on the Mediterranean coast of Spain for their honeymoon. How lucky! After settling in their Arlington apartment, March began working for the Federal Gov't in a food-welfare program called Commodity Distribution. Farther down Route 95 in Spotsylvania, Helen Row sends news of her activities. For the past two years she has been teaching elementary school, but this year she plans on doing only substitute teaching while planning her wedding to Michael Lee Mullins. As Michael works at the Lorton Reformatory, Helen hopes to be living and teaching in the Lorton area next year.

Finally, I'd like to share a newspaper clipping with you about Irene Stavrou Tate who graduated cum laude from the Univ. of Pennsylvania in May. Irene and husband Warren live in Woodbury, N.J. and now have a daughter Thania born six days before Irene received her degree. May was certainly an eventful month for the Tates!

The following news came to the Alumnae Office: "August 1 I married 2nd Lt. Randall Arthur Sikes. Randy is a 1970 graduate of West Point and has been off in Ranger School since Sept. 1, after having completed his Airborne training. We had a short but very delightful honeymoon trip to Nassau in the Bahama Islands—I've been home since Sept. 1 trying to keep busy while he's been completing Ranger. Substitute teaching and packing to move to Fort Gordon, in Augusta, Ga., has kept me extremely busy. Needless to say, I'm very anxious for Randy to get home. We hope that anyone in or around Augusta will look us up (sorry, we have no forwarding address yet).

Randy and I had the traditional military wedding complete with saber ceremony. Two of my attendents were also from the Class of '70—Gretchen Gregory was my maid of honor and Linda Lawrence was a bridesmaid.

Gretchen is busy teaching math at West Springfield High School. She seems to be enjoying that, as well as being sponsor of the Baton Corps, there. She's a mighty dedicated worker and I know she's doing a tremendous job.

Linda has a research position with Brookings in D.C. after having spent part of her summer in Denver, Colorado vacationing.

Kathie Slover is also working in D.C. with the Bureau of Indian Affairs. She was also present at my wedding.

Cynole Wills is back in the states after several months vacation in Europe. She and Doralece Lipoli traveled in several countries and had a grand time.

I received a long newsy letter from Olney Face Kliewer. She and Howard are living in Kansas and sound very very happy, although Olney reports that jobs are scarce for Latin majors, as they don't teach Latin in her town.

Just another quick word before I close, Gretchen and I have decided we are very happy as graduates but we still miss MWC. We're thankful for all our happy—and some not-so-happy memories.

Sincerely,
Kathy Hichak Sikes"

I'm afraid that just about wraps it up for this issue. Please keep in touch, though, and let me hear from the rest of you R-V's (and anyone else) so that I can include your news in the next issue. Hope to hear from you soon.

Gabby

Hi everyone!

Here is my first offering—not that I have much news, but I hope the news I have will interest at least some of you! First of all, I am teaching second grade in Dale City, and am living with Susi Duffey, who is teaching English to ninth and tenth graders at Woodbridge High School. Both of us wouldn't trade teaching for anything in the whole world! We keep in close touch with Lucia Smithey, Kathy McConnell and Pam Miller, who live in the same apartment complex that we do. Lucia will probably add her news, so I'll let her tell you about it. We have seen quite a few people here—it seems as though a lot of the Class of '70 has decided to teach in Prince William County. Susi sees LaVerne Warlick at school: she is also teaching English. I pass Lynn Vandevoort on my way to school most days. She, Linda Dye, Barb Bromley, and Carolyn Emerick are sharing a house in Dale City, but I don't know where. Let me hear from you, Lynn. I see some of Sandy Beswick. Sandy and Reggie Reed are both teaching in Manassas, as is Anne Potter. Anne and Reggie are moving into Woodbridge and we look forward to having them as neighbors.

Cathy Neale stopped to visit, as did Kristy McCoy and Mary Pat O'Donnell. Mary Pat is jobless, while Cathy and Kristy are at UVa for their fifth year course in speech therapy. Cathy is living with Donna Accettullo and Marilyn Cmil. Marilyn plans to be married in June. Sue Keblusek is attending graduate school at the University of Florida in speech therapy. How's the sun down there, Sue? Cathy also sees Karen Stifft, who is studying deaf education at UVa Karen is engaged and will marry next August. Eddie Lyane Young Carr is at the University of Georgia for speech therapy. We hear that Dinah McGuire is doing social work in White Plains, N.Y. Is that true, Dinah? Barb Bingley is our class representative on Capitol Hill, and loves politics. Sandy Sayre also stopped by. She couldn't find a teaching job, so she is working on an M.A. in English at Old Dominion U. My old roommate, Regina de Lauder is working for the Department of the Interior and living in Alexandria. She often sees Emmy Gibbons. Emmy works for General Services Administration and loves her job. I saw her in October while shopping. She is going to live with Alice Kelly if Alice finds a job. I never believed that the job market was so tight until I heard of all these people without jobs!

Now for some news about the Richmond crowd. Kathy Abel, Susan Evans and Debby White are living together in a townhouse. Kathy has a job in personnel at State Planters' Bank and just is crazy about it. Naturally, she has her own office! Susan and Debby work at MCV, Susan in the virology lab and I don't know exactly where Debby works. Linda Martin is planning a move into a townhouse, and should be settled by the time this is published. She is working for the Equitable Life Assurance Co. as a claims approver. Says the job would be dull except for the diversity of the claims, so she enjoys it. Had a letter from Barbara Forgione Tansey who was married to Bruce in August in a very lovely wedding. She, too, was unable to find a teaching job in Pittsburg, where they are living, and is working for an engineering company. Nan Hopkinson got married in late Sept. to Robert De'Sorrento and is residing in New York State while he makes plans after his release from the Marine Corps.

There! I hope I haven't left anything or anybody out, but there's only one way to see your name in print and that's to write! C'mon everyone, and especially U-Z, drop me at least a postcard telling me what you've been up to!

Until next time,
Elaine

Missing Persons

We have been searching for "lost" alumnae for approximately one year and, to date, 658 have been found. Their names have been added to the mailing list in the Alumnae Office, and they will now receive current information about the College and the Alumnae Association.

On the following pages are listed the names of missing persons for the Classes 1913-1950. Space did not permit the publishing of names for the Classes 1951-1970, but these will appear in the next issue of the Alumnae News.

Some of the names have been published in previous listings of missing persons; some are being printed for the first time. In a few names are reprinted because we have received no information and, in other instances, they are reprinted because we have received more than one address, and a lack of time has hindered us in making the necessary checks.

We wish to thank all of you who have taken the time to participate in our search. In order for this project to be even more successful, it is necessary to have additional assistance. Won't you please look over very carefully the following pages and, if you have information about any person on the list, send it to: Mary Washington College Alumnae Associatioo, Attention: Records Section, Box 1315, College Station, Fredericksburg, Virginia 22401.

Class of 1913

Deniel, Helen L.
Diedrich, Anna
Micholas, Margaret
Schrimger, Bertha
Wortham, Belle

Class of 1914
